

SUMMMARY

Lectured and presented papers at internationally recognised Universities and research institutes and published numerous academic articles in leading international economics journals such as *The Manchester School*, *Challenge*, *Health Affairs*, the *Journal of Post Keynesian Economics*, the *Scottish Journal of Political Economy*, *Economic Issues*, *Review of Political Economy* and the *Research in the History of Economic Thought and Methodology*. In 2000 Dunn received the prestigious K.William Kapp prize for his article "Wither Post Keynesianism?" from one of Europe's largest economics associations. Dunn is an international authority on the economics of the late Harvard Professor, Ambassador and advisor to successive presidents, John Kenneth Galbraith (1908-2006). In 2002 Galbraith acknowledged that Dunn was one of the first people to read *The New Industrial State* like he 'hoped might be generally the case'. Research Papers in Economics (RePEc) ranks Dunn in the top 40% of economists across Europe, a not inconsiderable feat given he conducts the majority of his research in his spare time.

Research Interests

The economic contributions of J.K. Galbraith, Theory of the Firm, Keynesian Economics, New and Old Institutionalism, Post Keynesian economics, Health Economics, Uncertainty, Methodology.

Books

1. Dunn, S.P. (2012) *John Kenneth Galbraith: The Economic Legacy*, Four Volumes (London, Routledge).
