SESSION 4 (Chair - Glenn Lyons)	
1630-1700	From 'Two Jags' to the Prius: shifting policy agendas and the Government Car Service Geoff Dudley
1700-1730	Individual CO2 profiles from passenger transport in the Netherlands and the United Kingdom Yusak Susilo, Dominic Stead

**Note** - This mini-conference has arisen as a result of the papers above having been accepted for presentation at the forthcoming annual transport studies conference in the UK. The UWE mini-conference reflects a chance for authors to have a 'dress rehearsal' for the conference coupled with the opportunity to allow any other colleagues across the University to gain more insight into the research activities of the Centre for Transport & Society.
