

WILLMOTT DIXON NEWSLETTER

BOWER ASHTON MASTERPLAN - THE MEDIA BUILDING

Update on Building Works

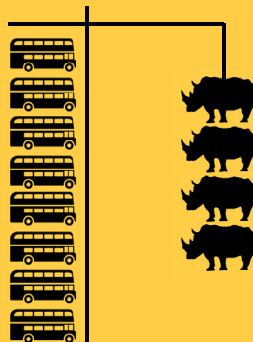

PROGRESS UPDATE

The aim of this newsletter is to inform you of our achievements in the past month and to provide a brief update of upcoming events for September.

This past month our focus has been to complete the ground floor concrete slabs and erect the steel frame to the Production Studio. Both of which have been successfully achieved allowing each element to progress further.

Also complete is the erection of the tower crane. We have chosen this method of distribution and lifting due to logistical constraints, another factor is that we reduce significant plant noise otherwise caused by a fork lift or crawler crane.

The tower crane is 36 metres tall and can lift 8 tonnes at 18 metres from the centre of the crane. That's the equivalent of being 8 double deckers tall and lifting the weight of 4 rhinos!

In the coming month you will see the start of the structure which is a reinforced concrete frame for the main building. Our aim is to be pouring concrete at first floor level in readiness to repeat the process up to second floor.

As a team we would like to apologise for the extended closure of Kennel Lodge Rd. This was regretfully due to strong winds when erecting the tower crane.

Attached with this newsletter is a questionnaire which we would like you to fill out and return to our site post box located by the bottom gate. We will be making a donation to charity for each questionnaire returned and look forward to receiving your comments on proceedings to date. If you would like to be notified of any noise disruption or daily issues that may affect you, please include your mobile number for text updates.

Many thanks, Martin

MEET THE TEAM

Jack Chami is the Assistant Building Manager at Bower Ashton. He has been working for Willmott Dixon for 3 ½ years and came to us as a plumber and mechanical foreman.

JACK CHAMI

Jack's aim for this project is to hand over the project on time, and to ensure we have a happy client, neighbours and supply chain.

'I eat Frosties cereal bars with out my missus knowing.'

FUNDRAISING FOR THE HARD HAT CAFE

On August 12th we raised over £1,000 at the Hard Hat Cafe, our temporary burger stall at the entrance to Bristol's legendary Balloon Fiesta.

A massive thank you to everyone involved. All proceeds have gone to the Great Western Air Ambulance Charity.
