### **Media Appearances**

Dr Jo Barnes from UWE’s Air Quality Management Resource Centre was on BBC Points West 23 February and on Radio 4’s Costing the Earth discussing air quality in Bristol. This was as part of a week of special Green Capital programming examining why Bristol has been awarded this status and looking at the long-term effects it will have on the city. Jo also appeared on BBC World Service Programme <http://www.bbc.co.uk/programmes/p02k55yp>

The driverless car was featured on BBC Inside Out West – see link <http://www.bbc.co.uk/iplayer/episode/b052hhkw/inside-out-west-23022015>

Melissa Pilkington from the Centre for Appearance Research was interviewed by Jack FM about the latest breast cancer study looking at helping patients cope with hair loss.
