

## **International Conference on Recent Advance of Food Analysis AND China/UK workshop “Novel Technologies for Food Industry – Route to the Market” 15-17 September 2012— Beijing, China**

The Institute of Quality Standards & Testing Technology for Agro-Products (IQSTAP) in Chinese Academy of Agricultural Sciences (CAAS) would like to invite you to an international conference on recent advance of food analysis, to be held in the autumn in Beijing. This conference will include a China/UK workshop as a part of BBSRC-funded UK/China Partnership Award for Novel Food Technologies, which is co-organised by CAAS and the Centre for Research in Biosciences & Institute of Bio-Sensing Technology both at the University of the West of England, UK.

The conference and the workshop aim to bring together the scientists, industry, policymakers and other stakeholders in order to address complex issues of food industry challenges.

Particular emphasis will be on the development and taking to the market novel, cost-effective and rapid technologies for agri-food products.

### **Conference will include:**

- presentations from industry and leading experts in the area of food science and testing technology development
- a workshop on novel technologies with focus on opportunities for commercialisation in international context
- poster sessions
- industry exhibition
- group discussions

### **Call for Abstracts**

Abstracts are now invited on the following themes:

- food industry
- food safety techniques
- traceability and authenticity techniques on high value agro-products

**Submission deadline: 15<sup>th</sup> August**

\*Abstracts need to be written in English

There will be opportunities for networking, developing project ideas, exploring funding prospects, and discussing long-term collaboration between academia and industry, both in China and internationally.

Sponsored by:

## Programme Outline

### September 14th

Registration

### September 15th

Opening remarks

“Novel Technologies for Food Industry – Route to the Market”

### September 16th

“Novel Technologies for Food Industry – Route to the Market”

Agro-products traceability and authenticity techniques

Techniques for unknown contaminants identification in agro-products

### September 17th

Equipments development of agro-products analysis.

Screen / on-line analysis of contaminants in agro-products.

Close remarks

## Scientific committee

Prof. Zhihua Ye (chair) Institute of Quality Standards & Testing Technology for Agro-Products, CAAS

Prof. Olena Doran (co-chair) University of the West of England, Director of Centre for Research in Biosciences

Prof. Shuming Yang (co-chair) Institute of Quality Standards & Testing Technology for Agro-Products

Dr. Gang Chen (secretary general) Institute of Quality Standards & Testing Technology for Agro-Products

Ms. Urszula Strzemiecka (organizing committee member) Institute of Bio-Sensing Technology, UWE Bristol
