Finding out about your campus

University of the
West of England

This is yourUWE.

A look at the top things you need to know before you start your course.

Over the past few weeks we've been sending you a series of information on different topics to help you get ready to start your course.

If we've only just transferred your record over to our system, you might not have seen some of the previous topics. Catch up with [academic things to know](#), [transport](#) and tips to look after your [health and wellbeing](#).

This time, we're talking about your **campus**.

Finding your way around

Room numbers

Room numbers at UWE can seem a little confusing at first. Follow this example to find out exactly where to go:

Room number: **2B030**

The first number (**2**) indicates the floor level. The letter (**B**) is the Block and the second number (**030**) is the room number. So in this example, **2B030** is on level 2 of B Block, room number 30.

There will be Student Ambassadors around campus in distinctive red t-shirts and hoodies on hand to help if you get lost.
