Module Handbook 2020/21

Module Name: V100 Prescribing Practice

Module Code: UZVRU4-20-M and UZVRU5-20-3

Module Leader Name: Dawn Odd
Aims of the Handbook

The handbook is a guide for students in the Department of Health and Social Sciences. The information in the handbook can also be found in a number of other electronic or paper sources and the document provides links to the definitive data sources wherever possible.

Please note that the electronic version of the handbook will be kept up to date and you will be notified of any significant changes. If you have taken a hard copy of any information please remember to refer back to the electronic version to ensure that you are working with the most up to date information.

7. Communication  page 8
8. Advice and support  page 10
9. Supervision of projects and dissertations – students’ expectations  page 7
1. Module team information

Module Leader
Dawn Odd, Room 2G14, 0117 3288565  Dawn2.odd@uwe.ac.uk

Module Team
Dawn Odd  0117 3288565  Dawn2.Odd@uwe.ac.uk
Ilhem Berrou 0117 3284053  Ilhem.Berrou@uwe.ac.uk

Non-Medical Prescribing Lead  Debbie Moreno-Chamorro

CPD Administration:  0117 328 1158  HAS.CPD@uwe.ac.uk

External examiners from other institutions are appointed to each module to act independently and work with the module team in the management of threshold academic standards. The external examiner appointed to this module can be found at http://www2.uwe.ac.uk/services/Marketing/about-us/cas/Extnl_Exam_Allocation_to_Mods.pdf

2. Module enhancement

This module is a stand-alone 20 credit module. The taught sessions are integrated within the SCPHN programme to meet all of the required learning outcomes stipulated by the NMC. Module evaluations and ongoing student feedback help to ensure the module meets the needs of students. Module delivery and content continues to evolve in light of this feedback.

3. Module specific information

Welcome to the V100 Prescribing Practice module. This module is a compulsory module for students enrolled on the BSc (Hons) and PGDip Public Health: Specialist Community Public Health Nursing (Health Visiting). Students successfully completing this module and the SCPHN programme have the ability to claim the NMC recordable qualification Specialist
Community Public Health Nurse – Health Visitor and Community Practitioner Nurse Prescriber.

The aim of this module is to develop your competence in the knowledge, understanding and skills required to achieve safe and effective prescribing practice. You will need to demonstrate your learning and competence in all of the areas of the NICE accredited Royal Pharmaceutical Society’s Prescribing Competency Framework, which you can read here:

https://www.rpharms.com/resources/frameworks/prescribers-competency-framework

The NMC has adopted the Royal Pharmaceutical Society’s Prescribing Competency Framework as their standards of competency for prescribing practice.

The module team comprises colleagues from a variety of clinical and academic backgrounds, and the team is here to support your learning. We very much hope that you will enjoy this module. Should you have any concerns with regard to the module, then please feel free to discuss these with members of the module team.

We expect a 100% attendance on this module to help facilitate your learning.

**Supervision and Assessment in Practice**

As the integration of theory and practice is central to this module it is essential that you maintain clinical practice relevant to your specialist discipline.

Learning in practice will comprise a minimum of 65 hours.

For this module you need to have both a Practice Supervisor (s) and Assessor (NMC, 2018).

Only in exceptional circumstances may the same person fulfil the role of prescribing practice supervisor and assessor.

Please contact the module leader immediately if this will be the case for your practice learning.

The Supervisor (s) must

- serve as role models for safe and effective practice in line with their code of conduct
- support learning in line with their scope of practice to enable the student to meet their proficiencies and programme outcomes
- support and supervise students, providing feedback on their progress towards, and achievement of, proficiencies and skills
• have current knowledge and experience of the area in which they are providing support, supervision and feedback

The Assessor must

• be a registered healthcare professional and an experienced prescriber with suitable equivalent qualifications for the programme the student is undertaking
• provide feedback to students throughout the programme to support their development as necessary for meeting the RPS competencies and programme outcomes
• assess the student’s suitability for award based on the successful completion of a period of practice based learning relevant to their field of prescribing practice

The assessor for the V100 module facilitates support and learning opportunities for the student and must be familiar with the requirements and learning outcomes of the programme and the Prescribing Competency Framework. It is a requirement that student’s employers will take responsibility to identify a suitable and experienced assessor who already holds the community prescriber qualification (or V300) and is willing to undertake the assessor role.

Your supervisor and assessor should be able to devote sufficient time during the module to provide appropriate guidance for you. This must be agreed and documented within the learning contract. We recommend that around **25 hours** are spent directly with your assessor or supervisor to enable them to assess your competence.

The remaining time may be spent with the wider team who should feedback to the assessor as required. This may include other nurses who prescribe, district nurses, clinical nurse specialists, nurse practitioners etc as well as prescribers from other professional groups e.g. pharmacists, G.P’s, hospital doctors. With the support and guidance of your assessor you will develop prescribing skills and knowledge related to your speciality.

**Portfolio Development using the Single Competency Framework for Assessment in Practice**

The NMC (2011) require that personal and professional development is documented within a portfolio. This use of a portfolio provides an excellent framework to encourage you to reflect for yourself and to demonstrate relevant learning activities and the way in which they have informed and influenced your practice. The prescribing practice portfolio is based on a regular process of reflection and recording what you learn from everyday experiences, as well as from planned learning activities. This is a key component of clinical governance.
The Competency Framework for Assessment in Practice is available on Blackboard and forms the basis of your Pebblepad portfolio. This is a working document which is to be used in practice with your prescribing assessor throughout the module.

There are ten competencies split into two domains. Within each of the competencies there are statements which describe the activity or outcomes prescribers should be able to demonstrate. All competencies will need to be signed off by your assessor in addition to the final report. The learning outcomes for the module are mapped to these competencies. The portfolio will contain evidence that supports the achievement of the practice competencies and in turn the learning outcomes of the module. On completion, your portfolio can be easily mapped against the prescribing competency framework for all prescribers (The Royal Pharmaceutical Society 2016) which you will continue to maintain post registration.

When writing reflective accounts of direct patient/client care encounters in different settings it is essential to ensure that these accounts are anonymised to protect confidentiality.

ROLES AND RESPONSIBILITIES

Student Responsibilities

Each student has overall responsibility for maintaining the portfolio on Pebblepad, ensuring the following:

a) The portfolio is available as a working document throughout the programme.
b) The learning opportunities are identified against the V100 Prescribing Practice module learning outcomes and competencies and are negotiated with the assessor.
c) Opportunities to meet are negotiated for the presentation of evidence and assessor feedback.
d) Evidence of achievement based on reflective analysis, which is guided by the module learning outcomes and competencies, is collated prior to the summative meeting(s) with the assessor and informs the student self-assessment and assessor verification.
e) The assessor feedback informs the development of future learning needs.
f) The profile is available at tutorials with academic staff.
g) Students are also responsible for ensuring that their assessors are aware of the responsibilities listed below:

Practice Assessor Responsibilities
The assessor has the responsibility for the student’s learning experience, ensuring the following:

a) To develop an effective relationship with the student and provide on-going, constructive support.
b) To facilitate the student’s integration into the practice setting.
c) To identify, with the student, learning opportunities within the area of practice appropriate to their learning needs.
d) To implement the approved assessment procedures, highlighting any areas of concern with the module leader/personal tutor.
e) To provide a role model for the student by ensuring a safe practice environment and promoting effective relationships with patients and clients.
f) To create a learning environment in which the student can confidently achieve the prescribed learning outcomes.
g) To initiate, manage and support change to develop practice.
h) Review and verify the evidence presented by the student against the competencies.
i) Communicate with other professionals who have acted as supervisors of practice to monitor the student’s progress.
j) Provide constructive feedback that enables the student to consolidate learning and identify continuing learning needs.
k) To assess the student’s competence to prescribe within the required clinical field.

Module Leader/Academic Personal Tutor Responsibilities

The module leader/academic personal tutor will:

a) Provide advice and support and monitor the student’s progress throughout the programme.
b) Liaise with the assessor regarding the student’s progress as necessary.
c) Respond to concerns identified by the assessor and/or student and facilitate meetings as necessary.

The module team comprises of colleagues from a variety of clinical and academic backgrounds, and the team is here to support your learning. We very much hope that you will enjoy this module. Should you have any concerns with regard to the module, then please feel free to discuss these with members of the module team.

Details of learning approaches, learning outcomes and module content are given in the module specifications: https://info.uwe.ac.uk/modules/listEntry.asp

This module handbook should be read in conjunction with University guidance and advice for students, which can be accessed via the following link.
http://www1.uwe.ac.uk/students/academicadvice.aspx. Particular attention should be paid to academic regulations which can also be found via this link.

**Module Learning Outcomes**

<table>
<thead>
<tr>
<th>Learning Outcomes for Level 7 (M)</th>

<td></td>
</tr>
<tr>
<td>9. Practice within a framework of professional accountability and responsibility in relation to nurse/midwife prescribing (Component A and B)</td>
<td></td>
</tr>
<tr>
<td>10. Recognise the unique implications and developmental context of the anatomical and physiological differences between neonates, children and young people (Component A and B)</td>
<td></td>
</tr>
</tbody>
</table>

The syllabus is aligned with the NICE accredited Royal Pharmaceutical Society’s Prescribing Competency Framework.

Topics covered within the module fall into two broad areas:

**Pharmacology** sessions and guided learning which include pharmacokinetics, pharmacodynamics, and reducing adverse drug reactions.

**Prescribing practice** sessions and guided learning which cover prescribing safely and professionally including reducing errors, reaching a shared decision, legal and ethical frameworks and wider influences on prescribing practice.

The module aligns with the **Faculty of Health & Applied Sciences’ Eight Generic Graduate Skills Capstones** in that professionalism in prescribing practice is promoted and assessed in the competency framework and practice aspect of the module, communication skills are supported through the delivery of an oral presentation in the practice area as well as the presentation of a written portfolio of evidence of learning. Critical thinking is taught through the analysis of the research base and evidence which underpins prescribing decision making. Students are encouraged to be forward thinking in their reflective work within the module and the competency framework as they consider their needs as a life-long learner within prescribing and how they can influence the development of prescribing within their organisation.
4. Assignment Brief

A Portfolio of evidence to support achievement of the required practice competencies

The aim of this portfolio is to demonstrate safe and effective prescribing. The Prescribing portfolio is due to be submitted via Pebblepad on Wednesday 17th November 2021 by 2pm.

Please note it is a requirement from the NMC that if a student omits information or answers a question wrongly which will result in direct harm to a patient that they must be referred. E.g. failure to ask about medication history, allergies, any over the counter medication, or incorrect dosage etc.

The following are essential inclusions within your portfolio:

- **Prescribing Competence Framework** (Found in Pebblepad), which has been completed by you and your Prescribing assessor and shows how you have achieved the 10 competencies over the two domains. *N.B. Some of these competencies may be met by through activities and assessments such as the pharmacology exam, numeracy test, poster presentation, pharmacy visit etc.*

  Please ensure you have discussed and agreed the learning contract and action plan with your assessor and that your assessor has completed the final report.

- A log of practice experience that demonstrates **65 hours in practice**.

- Evidence that you have completed a Pharmacy visit.

- **A pass mark of 100% in a numeracy test set during a module contact day and marked by a member of the module academic team. This will be taken on Wednesday 19th May 2021.**

- **A pass mark of at least 80% in the Pharmacology exam to be taken on Wednesday 30th June 2021** (another opportunity to sit the exam within the module is available please discuss with module leader)

  The written examination will consist of a total of thirty, short answer and multi-choice questions (MCQ) to test pharmacological knowledge and its application to practice. This is a 2 hour unseen examination.
• **A reflective summary of your learning: 1000 words** (Guidance available in the General portfolio guidance document available on Blackboard)

• **A poster presentation** (confirmed by your Prescribing assessor) that demonstrates consultation and assessment using the Prescribing Competency Framework. This poster presentation will include a **1500 word annotated bibliography (minimum of 6 papers) and a handwritten prescription**. The presentation will be assessed in your practice area by your prescribing assessor. (Guidance available in the General portfolio guidance document available on Blackboard)

• **Two handwritten prescriptions** (confirmed as seen by your Prescribing assessor). One prescription to be with the poster presentation and a second prescription will also need to be seen by your assessor.

**Your Bibliography and Reflection should:**

• Demonstrate full and accurate use of references using the UWE Harvard system. A guide to referencing can be found at: [http://www1.uwe.ac.uk/students/studysupport/studyskills/referencing.aspx](http://www1.uwe.ac.uk/students/studysupport/studyskills/referencing.aspx)

• Have your student number at the footer or header of each page.

• Identify number of words at the end.

• Reflect UWE guidance on maintaining confidentiality, which can be found here: [https://simita.uwe.ac.uk/HAS/students/MaintainingConfidentiality](https://simita.uwe.ac.uk/HAS/students/MaintainingConfidentiality)

The University’s policy on word count can be found here: [http://www1.uwe.ac.uk/aboutus/policies.aspx](http://www1.uwe.ac.uk/aboutus/policies.aspx)

**Further guidance and support**

If you would like support with essay writing, try ‘myskills’ on the university website for guidance and tips on essay writing. [http://www.uwe.ac.uk/library/resources/hub/](http://www.uwe.ac.uk/library/resources/hub/)
Details of additional support can also be found at this site.

The ‘Assignment Support’ tab in Blackboard also hosts a variety of resources to support your academic writing and provides further guidance with regard to the assignment. Members of the module team will also be happy to discuss your assignment plans.

**Assignment Support**
The module leader can review of students’ draft assignment once. Please email staff and you will receive written feedback on your draft. In addition, there will be an opportunity during the module where students can discuss their assignment with academic staff. Students will need to request written formative feedback no later than 3 weeks prior to the assignment submission date.

Your work will be assessed using the Marking Criteria which can be found at the end of this handbook. We strongly suggest you read these before writing your assignment.

5. Submission details

Please note that the submission deadlines are absolute and based on UWE server time, therefore you are strongly advised to submit work well ahead of the deadline dates to avoid situations where penalties could be incurred. Penalties are imposed if a submission is made up to 24 hours after the deadline, and the highest mark you can receive will be the minimum pass mark (if the assessment is passed). After the 24 hours have passed, the work will not be accepted for marking.

**Submission date:** The Prescribing portfolio is due to be submitted via Pebblepad on: **Wednesday 17th November 2021.**

You will receive informal feedback verbally through all teaching sessions – ensure you listen carefully. Each assessment you submit will be returned to you with written feedback, and consists of comments made by tutors on students’ assessed work which enables students to understand how they have met the defined assessment criteria and identifying areas for further improvement. The period for providing feedback will not normally exceed 20 working days (excluding University closure days) following the deadline for submission of the assessment concerned. This period may be shorter or longer for some forms of assessment. Where the period is greater than 20 working days, students will be informed of the deadline and the rationale for the extension. Outcomes which have not been confirmed by an examining board shall be considered as unconfirmed.

**Date of submission feedback:** 2\textsuperscript{nd} December 2021

**Date of re-submission:** Tuesday 26\textsuperscript{th} April 2022
MyUWE is used to communicate unconfirmed marks, provide cover sheets for assessments and to submit work.

6. Additional information and reading lists

Your module reading list can be accessed online, either directly through the link below or through the module’s Blackboard page.

The short video available on the library’s website will introduce you to some of the key features of the online reading list system.

A guide to referencing can be found at:
http://www1.uwe.ac.uk/students/studysupport/studyskills/referencing.aspx

The University’s policy on word count can be found:
http://www1.uwe.ac.uk/aboutus/policies.aspx

Sustainability Statement

The University supports the global sustainability agenda for a strong, healthy and just society living within environmental limits.

As such we ask that you consider environmental impacts when travelling to university e.g. exploring the possibility of car sharing, using public transport etc. **Please try to bring a reusable mug for hot beverages. The Hub charges an extra 20p for a disposable cup if you do not have one.**
Consider the environmental impact of printing learning materials and try to keep this to a minimum.
7. Communication

Throughout your time with us, you will receive regular communication from your module leaders, and also administrative staff. It is your responsibility to ensure that you read everything that you are sent, and act upon it where appropriate.

The main communication channel used is the Blackboard for all the modules you are currently studying. Blackboard provides the main communication channel for module specific information and these too should be checked regularly for new content and announcements.

Please see http://info.uwe.ac.uk/myUWE/guidance/default.asp for further information on all aspects of your myUWE portal.

8. Advice and support

There are a range of facilities and services available to go to for advice and support depending on what the issue is. Remember - asking for help at the earliest possible stage will help you in the long run. Your first point of call should always be the module leader Dawn Odd, as they will be able to sign post you to the right services and will be able to deal with specific matters relating to teaching and learning. Alternatively you could contact Joanne Seal as the Programme Leader for the SCPHN programme Joanne.Seal@uwe.ac.uk

If you are not able to contact Dawn or Jo for any reason go to an Information Point, details of which can be found at http://www1.uwe.ac.uk/students/informationpoints.aspx

Student Support Advisers are available and can also be contacted through the Information Points, see http://www1.uwe.ac.uk/students/academicadvice/studentadvisers.aspx for information on how they might be able to help.

However, you are more than welcome to talk to other members of UWE staff depending on who you feel most comfortable talking to.

<tr>
<td>89 - 80%</td>
<td>Excellent</td>
</tr>
<tr>
<td>79 - 70%</td>
<td>Very Good</td>
</tr>
<tr>
<td>69 - 60%</td>
<td>Good</td>
</tr>
<tr>
<td>59 - 50%</td>
<td>Pass</td>
</tr>
<tr>
<td>49 - 40%</td>
<td>Marginal Fail</td>
</tr>
<tr>
<td>39 - 30%</td>
<td>Limited</td>
</tr>
<tr>
<td>29 - 20%</td>
<td>A Limited Piece of Work</td>
</tr>
<tr>
<td>19 - 10%</td>
<td>Very Limited Piece of Work</td>
</tr>
<tr>
<td>9 - 0%</td>
<td>Exceptionally Limited Work</td>
</tr>
<tr>
<td>Grade</td>
<td>UNDERGRADUATE Level 3 Marking Criteria. Indicative Qualities</td>
</tr>
<tr>
<td>-------</td>
<td>-------------------------------------------------------------</td>
</tr>
<tr>
<td>100 - 90%</td>
<td>Exceptional scholarship for the subject. Creative and original insight into theoretical issues. Exemplary.</td>
</tr>
<tr>
<td>89 - 80%</td>
<td>Outstanding knowledge and sustained argument and critical evaluation. Mature analysis. Clear evidence of independent thought; Convincing synthesis of a range of appropriate sources. Excellent referencing. Evidence of use of new sources and approaches.</td>
</tr>
<tr>
<td>79 - 70%</td>
<td>Knowledge and understanding is comprehensive in both breadth and depth. Strong ability to critically appreciate concepts. Evidence of independent thought. Presentation is fluent and focused; use of a wide range of evidence; Clear and well-presented discussion. Excellent referencing.</td>
</tr>
<tr>
<td>69 - 60%</td>
<td>Comprehensive in content and well organised argument but evaluation and analysis of ideas could be further developed. Clear evidence of appropriate reading with evidence of having drawn on reading from beyond the course material. Good accurate referencing. Ability to relate theory and concepts to discussion. Content always relevant and well-focused.</td>
</tr>
<tr>
<td>59 - 50%</td>
<td>Sound comprehension of knowledge base. Reasoning and argument generally relevant but could be further developed. Critical evaluation is apparent but ability to conceptualise and/or apply theory could be strengthened with greater focus and more in-depth analysis. Good evidence of reading. Appropriately referenced.</td>
</tr>
<tr>
<td>49 - 40%</td>
<td>Meets the relevant learning outcomes but mostly descriptive. Some basic evaluation but analysis is not very well developed and could be strengthened. Some misunderstanding of key principles and concepts. Evidence of appropriate structure but not always well sequenced. Evidence of some reading but limited. Presentation and focus may need improving.</td>
</tr>
<tr>
<td>39 - 35%</td>
<td>Little evidence of understanding and overall not reaching the minimum pass standard due to some key omissions in presentation, argument or structure. Argument needs further development. Content not always relevant. Limited evidence of reading.</td>
</tr>
<tr>
<td>34 - 30%</td>
<td>Some evidence of effort but missing some essential aspects. For example, may be lacking in evidence of understanding, focus and structure. Likely to have limited discussion with some lack of relevance. Presentation may need to be improved. Likely to show insufficient evidence of reading.</td>
</tr>
<tr>
<td>29 - 20%</td>
<td>Some material presented but generally unsatisfactory with some irrelevant or incorrect material. Lack of discussion. Likely to show insufficient evidence of reading; Likely to be incomplete.</td>
</tr>
<tr>
<td>19 - 10%</td>
<td>Significant deficiencies; Likely to have insufficient, irrelevant or incorrect material. Likely to have very poor structure and no discussion.</td>
</tr>
<tr>
<td>9 - 0%</td>
<td>Insufficient material presented. No evidence of sufficient preparation. Zero is reserved for failure to attempt an answer</td>
</tr>
<tr>
<td>Exceptionally Limited Work</td>
<td></td>
</tr>
