

# Get ready for BSc(Hons) Radiotherapy and Oncology

I hope that you are enjoying your summer holiday and are looking forward to starting at UWE Bristol. As your Programme Leader, I warmly welcome you onto the BSc (Hons) Radiotherapy and Oncology course.

I have provided some information below that will help you to prepare for starting with us. I look forward to meeting you.

## Heather Lawrence

BSc (Hons) Radiotherapy and Oncology Programme Leader

---

## Before you start

We are looking forward to welcoming you in the week commencing 15 September for Starting Block and the beginning of your programme.

Starting Block will help you settle into university and to help you get to know your teaching team and course mates. We will help you find your way around, get used to our systems, and practise the skills you need to make a strong start. Look out for further emails and explore the [Starting Block website](#) with more details.

Your [timetable](#) will be available to you via MYUWE (login required) once you have started the registration process. Please visit the '[Understanding your teaching timetable](#)' website to find out when your timetable will be published.

## Preparing and arrival

You can find everything you need to know about registration, Starting Block and the start of teaching, on our [Preparing and Arrival](#) webpage. Take a look at our website to familiarise yourself with our facilities and services such as the [library](#), [study skills](#), [academic support](#), [health and wellbeing support](#) and much more.

## Registration

Once you have satisfied all admissions requirements, we'll send you your login details for our IT systems to enable you to activate your university email account. Once your account has been activated, you'll gain access to the [MYUWE](#) platform where you can register. Note that your login details for MYUWE are different to those used for the UWE Welcome website. Registration for September programmes will only be open from August onwards. You can find guidance and further information on our [Registration](#) website.

### **ID card - upload your photo now**

We can only print your ID card if you have added your photo to [MYUWE](#). To avoid delays, upload your photo as soon as you receive your login details. For help, go to our [student card guidance](#).

## **How to make a successful start to your programme**

### **Specific for your course**

In previous correspondence you will have already been informed about our additional requirements which must be completed ahead of Registration and Induction:

- **Academic certificates**
- **Disclosure and Barring Service check**
- **Occupational Health clearance**

### **Immunisation**

Please read both the [Immunisation Letter](#) and [Immunisation leaflet](#) prior to commencing your studies.

If any of these requirements are still outstanding, you must send the relevant paperwork to us, as instructed, as soon as possible.

Please be aware that Incomplete Disclosure Barring Service and Occupational Health Checks will impact on your ability to access learning materials, attend placements and complete your registration onto your degree programme.

### **Placement Uniform**

Details of how to order your placement uniform online will be sent to you by email soon after you start. This will include guidance to help you take accurate measurements that will be required to process your uniform order. You will also be asked to provide an address where your uniform will be delivered – please ensure that the address you provide is where you will be based when the delivery is made. Uniform deliveries will be made between late October and December. Look out for the email in your UWE email inbox and order your uniform promptly.

When you are in the Clinical environment either at UWE or in clinical practice, you will need a comfortable pair of shoes (preferably black). Your shoes need to afford support and protection to your feet (open-toe shoes, Crocs, sandals, and trainers are not permitted by hospital trusts). Please ensure that you bring suitable footwear with you. Long hair must be tied back away from the face for all practical sessions, and nails must be kept short.

### **Therapeutic Radiographer equipment**

You will be required to obtain some items of equipment during the first academic block:

- A fine nibbed sharpie pen (black or dark blue)
- Pocket calculator
- A small piece of white card the size of a credit card
- A small pocket sized note book

### **Ruler**

You will need to purchase a small stainless steel 150mm/15cm metal ruler. You should

ensure that the graduations begin at the edge of the ruler as shown here:

### **Film Badge**

As a radiographer, you are legally required to wear a film badge. This is a small badge that is worn whenever you are in the clinical setting. The film badge is issued prior to each placement and must be returned on completion of the placement.

If you lose or break your film badge or it is returned later than requested, you will be required to pay a £40 fine. This will cover the cost of purchasing a replacement for you to use and if returned late, the fee will cover the fine paid by UWE for the late return to the supplier.

## **Engage with your programme**

### **Start your learning**

I would recommend you do the following before you arrive at UWE:

- Refresh your knowledge of anatomy and physics by visiting the [BBC Bitesize GCSE webpages](#) (biology/physics) and the [BBC bitesize higher webpages](#) (biology/physics).
- Visit the [HCPC website](#) for professional code of conduct information.
- Access the [Society and College of Radiographers student zone](#)
- [NHS Health Careers](#) - for information on working in the NHS and NHS values.

### **Read around your subject**

A key skill which is required to achieve a high level of success within your chosen programme is the ability to think critically about key issues and practices. To help you to enhance these skills and be ready to engage with your studies, you should start to read and research around your subject before you arrive. Explore the [Library](#) web pages to see the wide range of resources available to you once you become a UWE Bristol student.

We do not recommend that you buy books before starting the programme as there are diverse ways of learning and different books will appeal to different people. Details of recommended reading and access to e-books via the UWE library will be available when you start. However, there are useful resources to look at to keep up to date as to what is happening in the profession:

[Cancer Research](#)  
[Society and College of Radiographers](#)  
[Health Education England](#)

## Be prepared

### Access support

Check the information on our [Disability web pages](#) so you know what you need to do. If you need any urgent additional mobility or other support to fully access all activities during your studies, contact me as your programme leader.

### Get equipped

The University has computers on all our campuses for you to use during your studies. These provide access to our core digital learning tools and any specialist software required for your course. You may have scheduled sessions in computer labs or other specialist facilities, and you will be able to use open-access PCs for self-study.

UWE Bristol licenses many specialist software packages for use on personal laptops for the duration of your course. If you're struggling to meet the financial demands of your course, please contact the [Student Money Service](#) team for advice and guidance.

See the UWE website for detailed information on [choosing your IT equipment](#) including [recommended specifications](#).

For this programme we recommend the **Core** as a minimum but **Enhanced** is preferred.

Specialist applications used on the course include: Citrix, Eclipse Radiotherapy Planning system. These applications work on **Windows and Mac** devices but not on tablets or Chromebooks.

### International students

[The Global Student Support Team](#) offer information and advice to ensure you receive all the support you need to get the best from your time at UWE Bristol. They are here to help you to settle in when you first arrive at UWE Bristol and organise social events to help you to adapt to your new environment.

## Who to contact if you have questions

For any questions about the course, please contact me: **Heather Lawrence** via email at [Heather2.Lawrence@uwe.ac.uk](mailto:Heather2.Lawrence@uwe.ac.uk)

---

Please note: this information has been provided on the assumption that you will meet the conditions of your offer and be eligible to take up your place.
