

Get ready for BSc(Hons) Psychology

We hope that you are enjoying your summer and are looking forward to starting at UWE Bristol. We are the Programme Leaders for the BSc (Hons) Psychology programme. We would like to warmly welcome you to UWE Bristol.

We have provided some information below that will help you to prepare for starting with us. We look forward to meeting you.

Dr James Macdonald
Programme Leader

Before you start

We are looking forward to welcoming you in the week commencing 15 September for Starting Block and the beginning of your programme.

Starting Block will help you settle into university and to help you get to know your teaching team and course mates. We will help you find your way around, get used to our systems, and practice the skills you need to make a strong start. Look out for further emails and explore the [Starting Block website](#) with more details.

Your [timetable](#) will be available to you via MYUWE (login required) once you have started the registration process. Please visit the '[Understanding your teaching timetable](#)' website to find out when your timetable will be published.

Preparing and arrival

You can find everything you need to know about registration, Starting Block and the start of teaching, on our [Preparing and Arrival](#) webpage. Take a look at our website to familiarise yourself with our facilities and services such as the [library](#), [study skills](#), [academic support](#), [health and wellbeing support](#) and much more.

Registration

Once you have satisfied all admissions requirements, we'll send you your login details for our IT systems to enable you to activate your university email account. Once your account has been activated, you'll gain access to the [MYUWE](#) platform where you can register. Note that your login details for MYUWE are different to those used for the UWE Welcome website. Registration for September programmes will only be open from August onwards. You can find guidance and further information on our [Registration](#) website.

ID card - upload your photo now

We can only print your ID card if you have added your photo to [MYUWE](#). To avoid delays, upload your photo as soon as you receive login details. For help, go to our [student card guidance](#).

Engage with your programme

Start your learning

Have a look at the blog posts for the [Psychological Sciences Research Group](#), which is the research group to which most psychology staff belong.

Have a look at the [BPS Careers website](#) and [career choices and case studies from UWE students](#) to start considering different career pathways in psychology. Please note that there are many things outside of psychology you can do with a psychology degree as well!

Read around your subject

A key skill which is required to achieve a high level of success within your chosen programme is the ability to think critically about key issues and practices. To help you to enhance these skills and be ready to engage with your studies, you should start to read and research around your subject before you arrive. Explore the [Library](#) web pages to see the wide range of resources available to you once you become a UWE Bristol student.

We've created a special [pre-enrolment reading list](#) for you which contains recommended textbooks as well as links to readings, podcasts, videos and websites that relate to psychology and our programme.

If you'd like to read more about psychology including possible career options, please have a look at the resources on the webpage of the [British Psychological Society](#).

Connect with others

Have a look at some of the social media sites for UWE Bristol and UWE Psychology to learn more about the university and programme, and start connecting with your course mates such as:

- [Psychology Community@UWE Bristol](#) on Facebook
- @PsychUWEBristol on [Twitter](#)

Be prepared

Access support

Check the information on our [Disability web pages](#) so you know what you need to do. If you need any urgent additional mobility or other support to fully access all activities during your studies, contact me as your programme leader.

Get equipped

The University has computers on all our campuses for you to use during your studies. These provide access to our core digital learning tools and any specialist software required for your course. You may have scheduled sessions in computer labs or other specialist facilities, and you will be able to use open-access PCs for self-study.

UWE Bristol licenses many specialist software packages for use on personal laptops for the duration of your course. If you're struggling to meet the financial demands of your course, please contact the [Student Money Service](#) team for advice and guidance.

See the UWE website for detailed information on [choosing your IT equipment](#) including [recommended specifications](#).

For this programme the **Core Specification** will be sufficient, however you may wish to consider futureproofing by purchasing a machine in the **Enhanced** or **Intensive** specification, particularly if you are thinking that you will want to do some more intensive data processing on your own device (e.g. some third-year projects may involve some more intensive data processing, but note you will also have access to university machines).

International students

[The Global Student Support Team](#) offer information and advice to ensure you receive all the support you need to get the best from your time at UWE Bristol. They are here to help you to settle in when you first arrive at UWE Bristol and organise social events to help you to adapt to your new environment.

Who to contact if you have questions

For any questions about the course, please contact our Programme Lead:

Dr James Macdonald via email (James.Macdonald@uwe.ac.uk) or view my [Staff profile](#).

Please note: this information has been provided on the assumption that you will meet the conditions of your offer and be eligible to take up your place.

Entry: September 2025
