**Taught Language**      English

**Language support**      TBC

**Term dates**      Aug—Dec or Jan—Apr

**Website**      <https://www.lapinamk.fi/en>

### Description

Lapland University of Applied Sciences offers a modern, international learning environment and multi-cultural community for its students. Nursing and Physiotherapy students studying at this institution undertake clinical placements in hospital and community settings whilst on exchange allowing them the opportunity to gain specialist skills in a professional healthcare environment outside of the UK.

### Surrounding Area

Rovaniemi is the official home of Santa Claus in the heart of the Lapland region. It is a comfortably small-scale, student friendly, safe and affordable town to live in with plenty of opportunities to take part in sports and cultural activities. Santa's Village—home of a husky park, reindeer park, snowmobiles—and of course Santa, is a popular tourist attraction. In more remote areas, students can experience Lappish nature—snow-covered mountains, midnight sun and the northern lights.

### Accommodation

Accommodation is basic and available on a first come, first served basis. Students are encouraged to apply early to avoid disappointment.

### How to apply

When nominated to Lapin, you will need to:

- Complete an online application form (login details will be sent to you by email)
- Submit a draft Learning agreement, transcript, passport photo and information letter via the online portal.

### Further information

Please speak to the appropriate academic coordinator:

Physiotherapy—Jacqueline Mullan

Nursing—Gina Ellis & Jarek Turif
