Website	https://www.sbs.su.se/english/

Description

Stockholm Business School has good support for incoming Erasmus students and welcomes 140 exchange students every semester. Students can expect a buddy programme, welcome dinner, as well as social and sightseeing opportunities. The area is within the national city park close to the Brunnsviken lake.

Surrounding Area

Stockholm is the largest city in the Nordics and has a student population of around 80,000. The summers give residents almost 24 hour sunlight and the winters bring magical Christmas lights all over the city. The city has a large variety of museums and parks with regular concerts and sports fixtures to enjoy. There is a very international vibe to the city and English is widely spoken by the locals.

Accommodation

Limited student accommodation is available to exchange students only. Private accommodation is available but very hard to find so students are encouraged to opt for university halls.

How to apply

When successfully selected by UWE and nominated to Stockholm you will be invited to make an application. Application deadline: Mid May
