MORE THAN A DEGREE

| a 360° experience

For us, university should be a 360° experience. It's a given that you'll learn amazing things – that's what you can expect from a TEF Gold university. But that's just the beginning.

Much more than a degree, 360° means accessible real-world experience and opportunities to connect with top people in your field. It's a buzzing, inspiring, supportive community to live, learn and grow in; plus life-changing experiences in volunteering and sport to help you discover just how much you're capable of.

Be challenged. Be surprised. Be stretched. Be supported. Become career-ready, experienced, self-aware and confident. Choose more than a degree – choose the 360° experience.

“

I'm so pleased I studied at UWE Bristol. I've no doubt that my degree gave me the skills and confidence to achieve my goals and find a job I absolutely love. It's got me exactly where I wanted to be.”

Anna, Geography graduate

THE PROOF

Stats that speak for themselves:

TEF Gold

In June 2018, UWE Bristol was awarded gold status in the Government rankings for higher education providers. We're among just a handful of UK universities to achieve TEF Gold-standard university status in Teaching and Learning. This is the highest standard, and means you can be confident that you're getting the best.

95%

of UWE Bristol graduates are in employment or further study six months after graduation.

Source: DLHE (Destination of Leavers from Higher Education) Survey 2018

79%

of UWE Bristol graduates were in professional or managerial jobs after six months.

Source: DLHE (Destination of Leavers from Higher Education) Survey 2018

TOP 10

in the UK for student satisfaction.

Source: The National Student Survey 2018

WHY YOU NEED A 360° EXPERIENCE

It's a fiercely competitive world out there.

Knowledge alone isn't enough. You need presence, proven skills, and real experience to stand out from the crowd.

The 360° experience is much more than a great grounding in your subject of choice. It's your time to discover who you are and where you want to go. Your opportunity to explore your dreams. Your chance to connect with the people and organisations who will open doors in your chosen field. Let's see what that looks like in practice...

Career Ready

Everything we do here focuses on getting you ready for the future you want. Courses designed to meet industry needs? Work experience? It's all covered. You can be confident that you'll leave us an adaptable, well-rounded, work-ready graduate. What's more, you're in the perfect spot to make career-defining connections. Big names from Airbus to L'Oréal welcome UWE Bristol students on placements, and as graduates.

Discover the true you

A big element of your 360° experience is all the amazing things that happen outside the lecture theatre, lab or studio. Learn just how much you're capable of – and bank the kind of stories that help you shine at interview time – through volunteering, entrepreneurship, travel, student societies, sport and student politics.

Be part of something

UWE Bristol is a supportive community. We look after each other, and you'll feel a real sense of connection here. We have lots of fun, with clubs, sports, societies, events and initiatives like #UWEHallslife. There's always an open door at student support services, and we have a really caring Wellbeing team plus lots of resources like peer support and resilience workshops to help you feel happy and healthy.

DID YOU KNOW?

UWE Bristol courses are often designed in partnership with industry, so you can be sure that the skills you're gaining are what real employers are looking for. Find out more on page 14.

Why experience matters

Our focus on real-world experiences and personal development means you'll stand out in the graduate crowd. Instead of telling employers you've got potential, you can show them what you've already done.

“

Learning at UWE Bristol taught me to be a self-starter, and a strong team player, characteristics which are hugely valued in the workplace. Taking responsibility for my own learning, with supportive lecturers on hand, is the skill that has opened more doors than anything else.”

Tabitha, BSc(Hons) Mathematical Science

YOUR BRISTOL

We love Bristol, and it's easy to see why. Relaxed, creative and multicultural, our city is home to around 450,000 people – including many of the 30,000 UWE Bristol student community.

No.1

Bristol was named best place to live in Britain in 2017 by The Sunday Times

So what's waiting for you?

A city of villages

From chic Clifton to arty Easton, buzzing Southville to boho Montpelier, you're spoilt for choice when it comes to places to explore. Not too big, not too small, Bristol's a great place to live away from home for the first time.

All the fun

With a second-to-none live music scene, one of the world's top 20 clubs (DJ Magazine 2018), plus endless options for cinema, theatre and comedy, you'll run out of time, not options.

Fantastic festivals

Bristol is the festival city. Whether you're into wellness, graffiti or BBQs; balloons or boats; arts, music, culture or community; in Bristol there'll be a festival for it – and many are free!

Indie vibe

Bristol's famous Gloucester Road is the longest independent high street in the UK, and the indie vibe continues across the city. So if you like your coffee artisan, your wardrobe full of one-offs and your beer micro-brewed, you'll be spoiled for choice. Though if big names are more your thing, shopping centres at Cabot Circus and Cribbs Causeway have you covered.

Free stuff

Bristol's packed with fun you can have for free, with modern art at Arnolfini, a historic old city to mooch around, great museums, and beautiful green spaces.

Food and drink

Bristol's food and drink scene is delicious, diverse and really affordable. Whether you want to try authentic Korean food, pick up a Pieminister pie from its birthplace or feast on vegan fish and chips, it's all here for you.

Space to breathe

Green space and water provide a restorative backdrop to the city buzz. Bike, run, walk, read or meditate in one of Bristol's 328 parks. Whatever your pace, you'll find a space to make your own. More of a water baby? Take to a rowing boat, hop on a ferry, step back in time on the legendary SS Great Britain, or just watch the world go by and soak up the relaxing harbourside vibe. It's easy to see why Bristol regularly tops polls for happiness and quality of life.

Well connected

With two major railway stations and a coach station, you're in a great spot for access and adventures:

- Bristol is a Cycling City, with lots of cycle lanes, a super-affordable UWE Bristol bike hire scheme and pay-as-you-go Yobikes.
- All campuses are well connected by buses to the city centre and wider region.
- Bath is 15 minutes by train, while Wales, Somerset and the Cotswolds are under an hour away.
- London is 90 minutes by train or a couple of hours by bargain express coach – we even have our own Megabus stop at Frenchay.
- Bristol International Airport connects the area to the world, with direct flights to and from Europe, and connecting flights to the USA.

Campus and community

UWE Bristol gives you a best-of-both worlds experience when it comes to campus life and city living. You get the freedom, inspiration and excitement of living in a big city, but you're safe and supported too. You join a proper campus community, and you can be in the city centre in no time, thanks to great public transport links. Everything's close by, from our 24hr libraries to easy launderettes, through to doctors, support services, shops, cafes and bars.

Take a look at our locations and facilities on page 18.

DID YOU KNOW?

Bristol used to have its own time zone. Up until 1840, Bristol's clocks ran 10 minutes behind the ones in London. Maybe that's why we're so chilled.

“

Bristol's a great city to be in. It's very green, friendly and culturally diverse, and much better than London, which is just too busy. Everybody's welcome and everyone feels at home here.”

Muhammad, BEng(Hons) Aerospace Engineering

YOUR FUTURE HOME

Many of our graduates choose to settle in Bristol. So what makes our city such a great place to build a life? It's all about balance.

Proper prospects

From multinationals like Rolls-Royce and Sony to homegrown heroes like Aardman Animation and OVO Energy, ours is a city of opportunities. From banking, the creative industries and engineering to high-tech and healthcare, Bristol's the place to be.

Friendly and diverse

Bristolians are a welcoming bunch, and are rightly proud of their diverse, progressive, multicultural city and its achievements – from opening the first school in England to educate girls, to the UK's biggest Grand Iftar where 3,000 people shared a meal together in 2018.

Quality of life

Bristol regularly tops the UK polls. Happiness, best place to work and live, best city for cycling and walking... the list goes on. See the latest at uwe.ac.uk/bristol

A feel-good place to be

Bristol is a city full of proactive people driving positive change for the benefit of the whole community. Including hands-on initiatives that share skills, produce and other items, from extra allotment veg to unused furniture. Here at UWE Bristol we're doing our bit too; e.g. cardboard packaging and food waste from all our food outlets is composted and sent to a farm in Gloucestershire.

Sustainable stories

Bristol was awarded the title of European Green Capital for 2015, is the UK's first Cycling City, and is a Fairtrade City, trading fairly with nearly five million workers in 58 developing countries. It is also home to the Soil Association, Sustrans (the people behind the National Cycle Network), Triodos Bank, and the BBC Natural History Unit.

See more of the city we're proud to call home
uwe.ac.uk/bristol

DID YOU KNOW?

Over 25% of the world's natural history films are made in Bristol.

“

I absolutely love Bristol, it's a really vibrant and cultural city. There's always something going on, whether it's festivals in the summer, food markets by the harbour, day parties or balloon fiestas.”

Laura, BA(Hons) Marketing

CAREER READY

Get the latest knowledge, real-world skills, and plenty of opportunities to prove you've got what it takes in practice. Thanks to your 360° experience, you'll graduate career-ready.

Aligned with industry

Want to really stand out when it comes to interview time? Choose a course that has been designed in partnership with top employers in your field. We focus on where industry skills gaps are, so you graduate with proven skills and of-the-moment insight employers will find really useful.

Speaking of proof...

You'll also benefit from the strong partnerships, connections and networks we've built up with employers. That's over 1,000 national and international employers. Names you know, names you want on your CV. What's more, over 80 of our courses come with professional accreditation from industry bodies. So once again, you know you're getting the skills and knowledge employers need.

Enterprise is everything

Whatever you want to do when you graduate, an enterprising approach to life will set you on your way. We know it's something employers are looking for and are working hard to embed its principles in all our courses by 2021.

You'll have plenty of opportunities to develop enterprising skills; take risks, identify challenges and come up with innovative solutions. Interested in starting your own venture? There are plenty of ways to learn about being an entrepreneur. Dedicated support programmes, specialist advice and mentoring will set you on your way. And then you can put it all into practice at workshops and on longer summer internships. We've got co-working and incubation space available too so you can develop your ideas or test trade (and hopefully earn some money!) in a Pop-Up Shop.

Enterprise in action

You'll have a chance to try out your new enterprise skills in the UWE Bristol Grand Challenge. This initiative encourages students like you to work in teams to research and present your ideas for a solution to a real-world problem. In 2018/19 the focus for this was homelessness. It's your chance to make a difference, polish up your presenting skills and pull together as part of a team.

DID YOU KNOW?

75% of graduate vacancies are open to any degree discipline and one third of graduate vacancies don't get filled. Our careers team are here to help you spot, apply for, and (fingers crossed) land those opportunities.

8,000+ 2,000+

industry placements
completed in 2017/18

students and graduates have
undertaken paid internships

Careers and Enterprise Service

There's a full range of services to help you shape your career, gain experience or continue in further study. Career coaches are on hand to help you plan your future, and you can access the service both online and in person during your time with us – and up to three years after you graduate.

CV boosters in all shapes and sizes

Every student is different – and has different circumstances. We get that. That's why UWE Bristol offers a range of ways for you to gain valuable work experience. From rewarding, course-relevant volunteering to summer 'micro placements' (4 weeks or less), opportunity really is open for everyone here. There are paid placements, sandwich years and international study opportunities up for grabs too. And many courses include live industry briefs and study modules created in partnership with employers to boost your skills as you learn, too. It's all about making work experience work for you.

Show, don't tell

As well as proving your skills in practice with real-world experience, show the world what you're capable of by taking part in Degree Shows. From the creative industries to environment and technology, these exciting events showcase and celebrate incredible talent. It's your chance to share your work with friends, family, the public – and potential employers. Take a look for yourself at uwe.ac.uk/degreshows

“

My course gave me foundations for the real world. It's been tough at times, but being able to show employers I have the right skill set and prior knowledge has differentiated me from the competition and enhanced my prospects and my career.”

Bhavin, BSc(Hons) Mathematics

INSPIRING IDEAS AND FANTASTIC FACILITIES

The space you need to learn, grow, explore, get experienced. The people you need to help you make the most of it. It's all waiting...

Top teaching

Imagine learning from the people who are exploring the future of your field. The kind of minds who really change things – including yours. Then say hello to your new lecturers. We believe you deserve the very best. The kind of people who are reshaping the world within industry, or changing the way we all think as top researchers. People who are working on research with real impact on people's lives. With projects such as Pee Power: improving sanitation and women's safety in developing countries, to tackling the issue of negative body image and leading trials into the self-drive transportation revolution.

Learn from the boundary-pushers, the change-makers and the innovators and benefit from a richer, fuller, even more relevant learning experience. Graduate with a degree that's up-to-date in the latest industry thinking, set to open eyes (and doors) once you're in the workplace.

uwe.ac.uk/research

First-class facilities

One of the best things about being a newer university is that we have fresh, modern, purpose-built facilities that have been designed to really work for you. We are focused on industry standards – and getting you ready to really shine in the world of work – there's everything you need to get experienced, confident and employable. By 2020 we will have invested £300 million in our academic buildings, teaching facilities, accommodation, equipment and technology. That shows you where our priorities lie: with you.

uwe.ac.uk/ourfacilities

Not just a good place for students

UWE Bristol looks after 150 hectares of land, and we are really proud of the work that's going on to improve biodiversity and sustainability. See how we grow our own veg, provide homes for pollinators and more at

uwe.ac.uk/sustainability

DID YOU KNOW?

In June 2018, UWE Bristol was awarded gold status in the Government rankings for higher education providers. We're among just a handful of universities in the UK to have achieved TEF Gold-standard university status in Teaching and Learning. This is the highest standard, and means you can be really confident that you're getting the best.

THE 360° SUMMARY

From exciting research that's changing the world for the better, through to inspiring teachers with top industry links, you can expect a mind-opening time at UWE Bristol. Add in brilliant resources and facilities, and you're looking at all the gear and the right idea.

Featured Facility: Engineering

Aspire to engineering? We believe that Engineering is where change begins and where better to start your journey than in Bristol, the UK home to industry giants such as Airbus, Rolls-Royce, GE Aviation and Intel.

Our new engineering building is designed to inspire the engineers of the future. Opening in summer 2020, it'll be built for hands-on investigation, with engine test cells, wind tunnels and collaborative learning spaces. An ideal environment for encouraging you to explore, take risks and discover ways to change the world for the better.

What else is waiting for you?

There's too much to list, but here are some highlights:

- **The Film Studios at Bower Ashton** – the award-winning, £9 million home to industry standard production film making, animation and photography facilities for creative industries students.
- **The Escape Studios** – completed in 2018, these pro-quality studios enable our Animation students to create Pixar-style computer-aided animation.
- **The Laundry at Glenside** – real ward experience for our nursing and midwifery students with consultation rooms, maternity unit, children's unit; plus practical learning spaces for optometrists, paramedics and occupational therapy students.
- **Business and Law building** – get experienced in our City-style offices, fully equipped with simulated law courts and trading rooms.
- **University Enterprise Zone (UEZ)** – the place where high tech business and graduates connect.
- **Envirotron** – a sophisticated greenhouse that minimises environmental impact, supporting students focused on biodiversity, conservation, environmental change and food security.

You'll also get your hands on a full range of virtual learning tools, an extensive library service, and essential spaces to think and work. Plus, of course, places to unwind and chill, like our £10 million Students Union and the Hillside Gardens sports complex.

“

We want to be one of the top schools of engineering in the country. This building proves our commitment to addressing the future skills gap in the region.”

Professor Steve West, Vice-Chancellor

THRIVE AND FLOURISH

Choose UWE Bristol and we'll make a real commitment to providing the support you need to thrive. Because when you're happy and healthy, you're best placed to achieve amazing things.

Everyone needs a hand sometimes...

Making the transition from home and school to university and independence is an exciting adventure.

But from time to time, it can feel daunting. So whether you need a hand to make the most of your course, are feeling overwhelmed, or just want someone to listen, we've got you covered.

Doing right by you means being here for you in ways that work for you. It's all about making UWE Bristol the place you need it to be so you can thrive and flourish.

The Student Centre at the Farmhouse

Created in 2018, this new space is a place to connect, relax and just be. Alcohol-free, welcoming and sociable, there are bean bags and sofas to chill on, plus rooms for societies to meet and have fun.

Information Points

Information points are located across all campuses. These are a great first point of contact where you'll find experienced staff who can answer most questions and offer general help and guidance. Just pop along and see them. They can also book you appointments with specialist service staff for additional support as and when needed.

Support to be brilliant

There's lots on offer in terms of study resources – whether you need a quiet study space or a group learning space, it's all here. Libraries are on all campuses, with Frenchay open 24/7 so you can study whenever suits you.

Academic Personal tutor

At the start of your course, you'll be assigned an Academic Personal Tutor. They'll work with you and support you to progress throughout your course.

Faculty support staff

Our teams of specialist staff will provide you with advice on your course, modules and credits.

PAL Scheme

Peer Assisted Learning (PAL) is a student-to-student support scheme through which experienced students support those in lower years. PAL mentors help with all sorts. From academic and technical tips to emotional resilience, they are a great support and sounding board.

Help for international students

We run a range of courses for international students who need to improve their English to study at undergraduate and postgraduate level, as well as our International Summer School and Global Student Support Team. You'll be all set for study in the UK.

“

As an academic PAL leader I run workshops to help students with academic skills and guide them to get any other support they may need. I used the scheme myself during my first year and found it was good to talk to people who had been through it already and learn from their experiences.”

Elizabeth, BSc(Hons) Law

Support to be you

Student Support Advisors

Friendly, professional experts who are a fantastic first port of call. They can help you deal with changes in your personal circumstances, money worries or what to do if you want to change course.

Wellbeing Service

Our door is always open to support you with personal and mental health worries. We can provide lots of advice on things like using physical exercise to manage your mental health, or how to get a place on resilience workshops to build your confidence.

Need to talk? There's someone ready to listen.

- **Anonymous, confidential 24/7 support services** – free, safe and anonymous, professional online support through Kooth Student.
- **Free counselling** – drop in appointments and person-centred/solution-focused counselling.
- **Substance misuse expert** – for non-judgemental support and advice if you need it.
- **#LetsTalkNow** – awareness campaigns to create an environment where we put our mental health first.

Support when you need it

If you need extra support – or think you might – there's lots available.

Disability Service

Our team is here to help you access your 360° experience, from accommodation to funding to assistive technology.

uwe.ac.uk/disabilityservice

UWE Cares

If you're a carer, care leaver or estranged student, we will be a point of contact for you throughout your time at UWE Bristol, helping you get the right support when you need it. You may also be eligible for the UWE Cares bursary and 365 Accommodation.

Full information about the support you can access and how to contact us can be found on the UWE Cares website.

uwe.ac.uk/uwecares

Equality, diversity and empowerment

From BME leadership programmes to our welcoming, well-supported LGBT+ communities we're really passionate about valuing and empowering diversity at UWE Bristol.

“

I have felt really supported at UWE Bristol. My lecturers and personal tutors have helped me with balancing my life as a carer, full time student and part time worker. UWE Cares and the Wellbeing service have been great for support and counselling.”

Isla, BA(Hons) History

THE 360° SUMMARY

Supporting you means everything from help to make the most of your course, through to people to talk to when you need a bit of extra guidance. Our door is always open.

THE SOCIAL SIDE

You know – and we know – that valuable experience isn't limited to lecture theatres and work placements. Learning more about who you are, what you love, trying new things out and making new connections is invaluable too.

Friendship and fun

Outgoing and love to meet new people? Or prefer to take things steady and meet people who share your interests? Join one of The Students' Union's 140 sports clubs and societies and you'll make new friends in no time, plus try something new or build on a hobby from home.

For every interest or experience, there's a society for that. From the sustainable Green Team and shared faiths, to Film Society and UWE LGBT+, and the Debating Society, you can dip a toe into an array of new friendships and experiences. And that's before you even think about getting active...

Fit for life

Of course our sports clubs offer all the usual suspects: footie, rugby, hockey, netball, athletics... the list goes on. However, there are lots of less-expected fun ways to unwind and get moving too. Our Move programme offers sessions from HiiT to aerial hoop and yoga, circuits and kickboxing to rock climbing. There are sports societies, clubs and classes to suit everyone. So whether you're a signed-up sports person or a tentative first timer, it's an amazing time to discover your feel-great exercise.

Living at home?

Not everyone wants to – or can – travel away from home for university. And that's totally fine. We welcome lots of local students who play a really active role in the student social scene on campus, but live at home rather than in university accommodation.

DID YOU KNOW?

The Students' Union and UWE Bristol runs cafe-bars at Bower Ashton, Frenchay and Glenside campuses. With more than 12 cafes on Frenchay campus alone you'll have plenty of choice: from flatbread pizzas to Buddha bowls and coffee every which way. Better yet, the ethos is organic, locally sourced and fair-trade where possible too. And the vibe? Easy, welcoming and friendly.

Featured SU Society – Video Gaming

The Video Gaming Society prides itself on bringing people together as part of a welcoming and inclusive community. You will find new friends to play games with, have the opportunity to participate in inter-university competitions, attend trips and enjoy social events throughout the year. There are opportunities to get involved in society planning, arranging events and managing social media accounts. All skills that will give you valuable experience for the world of work.

“

I'm a big advocate for people joining societies. I didn't join in my first year and it's my biggest regret. I joined Hub Voice, the student magazine in my second year. I was the Assistant Editor and I absolutely loved every minute of it. I'm joining the History Society next year as their social media guru.”

Beth, BA(Hons) Marketing

BE PART OF SOMETHING BIGGER

Want to know your neighbours? Be part of something bigger? At UWE Bristol, you will. We're all about community – it's support, it's homecoming, it's giving back. It's making connections and gaining experience for life.

Who you know

We don't promise that you'll make friends for life, but the odds are good. Because your 360° experience goes much further than making friends in lectures or bumping into people at the bar. We're all about giving you opportunities to have the kind of experiences that open your eyes and make great memories.

Connect

with a worldwide alumni network of over 275,000 former students.

DID YOU KNOW?

At UWE Bristol, we believe small changes can make a big difference, so we use our purchasing power carefully. Eating spots across campus and our events are stocked with locally-sourced food, Red Tractor-assured meat and sustainably sourced fish.

#UWEHallsLife

Loving where you live definitely helps when it comes to being ready to achieve amazing things. And that's what our Halls Life programme is all about.

Run by students, for students (with a bit of help from The Students' Union, Accommodation Services, Healthy University and the Centre for Sport), Halls Life turns campus into a great community. Through charity activities, sustainability challenges and sports, you'll get to know everyone in your flat, your corridor, and eventually, your campus – take a sneaky peak behind the scenes on

#UWEHallsLife

thestudentsunion.co.uk/community/green-team
thestudentsunion.co.uk/community/hallslife

“

One of our favourite events is our collaboration with the amazing student led Green Team. It's called Bring Your Own Bowl (BYOB), where we combine three of our favourite things: free food, friends and sustainability. We take surplus supermarket food that would otherwise be thrown away and turn it into a free and healthy meal, and use this as a vehicle to raise awareness. We're always looking for volunteers to help out too.”

Vicki Harris, Sustainability Engagement Coordinator

40%

of UWE Bristol students are volunteers.
Whatever your skills, talents, and interests
we will find a role to suit you.

Volunteering

You get a lot back when you give your time. A different perspective and some CV-enhancing experience, for starters. We can hook you up with opportunities, so as well as feeling good because you did something good, you gain vital experience connected to your future plans. It's also a great way to meet people in your potential field.

Give back. Get back.

There are typically around 150 volunteering roles live at any one time. We have some great 'friends', and Bristol's such a social action city. Build your experience with things like:

- Becoming a reading buddy or sports coach in a local school
- Getting involved in research on the SS Great Britain
- Help to set up music festivals – or with logistics at St Paul's Carnival.

“

We often help students find their perfect volunteering match, for example, pairing illustrators with charities who need their sketching skills!”

Nia Crouch, Volunteering Coordinator

THE 360° SUMMARY

Whether you get inspired by keeping fit, live for the party, or want to drive positive change in the world around you, you'll find like-minded people here.

THE STUDENTS' UNION AT UWE BRISTOL

The merriment makers, the policy-shapers. The student rights champions. Tomorrow's leaders. Meet your Students' Union. These elected reps are students just like you, who have chosen to stand up and be counted on behalf of the UWE Bristol community.

They give you a voice, organise all the fun stuff, and are always there if you need someone to talk to. What's more, The Students' Union also has a range of services and support for you while at university, such as an Advice Centre, JobShop and Nursery. There is also a HallsLife community for those living on campus and a range of bars and shops that hold regular events for you to get involved in.

“ I'm the first international female president of The Students' Union and was also lucky enough to receive the Vice-Chancellor's scholarship. I feel truly grateful for being given so many invaluable opportunities to flourish, find out what I'm capable of and develop myself to become a business woman. The wide range of opportunities and support I've been given by the University and The Students' Union have opened so many doors for me. I would like to encourage all of you, no matter what your background, the colour of your skin or what you've been through in life to believe in yourself. You can be who you want to be. And we, The Students' Union, are here to support and empower you.”

Giang, Students' Union President

DID YOU KNOW?

Everyone's welcome to get involved at The Students' Union at UWE Bristol, and you can even stand to act as a rep for your course or department. Not only does it look great on your CV, it is also a brilliant way to make friends.

team today who are playing away at Swansea. 🍀

WELCOME TO CAMPUS LIFE

Frenchay Campus

Our heartland, and main campus. It's just four miles north of the city centre (just 15 minutes by Metrobus). Frenchay is where most of our students study and many choose to live too, making the most of new purpose-built facilities.

Where to stay

Accommodation-wise, you can live minutes away from the Centre for Sport, Centre for Music, the library and our cinema by opting for Frenchay. Settle in the personality-packed Student Village, the well-equipped townhouses of Wallscourt Park, or the friendly flats and smaller shared houses of Carroll Court.

With the university being on campus there was a great sense of community. It made the adjustment of moving away from home for the first time a lot easier."

Laura, BA(Hons) Marketing

DID YOU KNOW?

Frenchay is home to The West of England University Enterprise Zone (UEZ), one of only four in the country. UEZ offers startups and high growth businesses a whole university community with access to cutting edge research and world-class academic expertise in state-of-the-art facilities. Everything is here for businesses to flourish.

City Campus

Our creative and cultural industries campus is a mix of energising urban spaces, tranquil harbour-side studios, and our campus hub, Bower Ashton. Here you'll find award-winning, industry-standard facilities for the School of Art and Design and the School of Film and Journalism.

Where to stay

Living in the city centre, you can choose from five different accommodation options. Aside from being close to everything the centre of Bristol has to offer, you'll also have good access to the city's bus routes, so you can get to our other campuses easily.

DID YOU KNOW?

Bower Ashton is set in peaceful ancient parkland a stone's throw from the iconic Clifton Suspension Bridge – while our Spike Island, Arnolfini and Watershed facilities are right in Bristol's creative heart, where you'll be working alongside industry pros and working artists.

DID YOU KNOW?

As well as our clinical and optometry suites, there's also a crime scene house at Glenside. Forensic Science students get experienced in a setting that's scarily similar to a real crime scene.

Glenside Campus

Set in beautiful grounds in the Fishponds area of the city, Glenside Campus is three miles northeast of the centre. Picturesque and well-equipped, it's an inspirational place to study, and is home to many of our allied health, nursing and midwifery students.

Where to stay

Glenside and the Hollies are leafy, peaceful places to live. Both are just a few minutes' walk from Fishponds high street with friendly local shops and bars, and beautiful open spaces like Snuff Mills and Stoke Park Estate.

YOUR ACCOMMODATION OPTIONS

With a range of accommodation options to suit everyone, you'll feel safe, happy and at home here from the moment you arrive.

Living on campus

Get to lectures and the library in minutes. Have brilliant facilities right on your doorstep; from sporty stuff to our 24/7 library. Drop into the Students' Union or campus cafes and bars whenever you fancy. Feel safe, supported and right at the heart of a student village-style community.

Living in the city

If you like the idea of being right in the thick of it, there are plenty of options. Choose from one of five centrally located, purpose-built blocks, all with cafes, shops, bars and more right on the doorstep. All are well connected to our campuses by Metrobus, regular buses and cycle lanes.

How much will it cost?

Budget £120–£180 per week
(based on a 40 week let in 2018)

For latest costs and to find out more visit
uwe.ac.uk/accommodationcosts

What to expect

We know that feeling at home is a really important part of having a great student experience. Wherever you choose to live, you can be sure it'll be safe, well-equipped and comfy. Living is friendly and community-style – in a shared flat, house or hall – but your bedroom is your personal retreat. Typically you can expect:

- A furnished single bedroom with a bed, desk, TV point and fast internet – many are ensuite too.
- Modern kitchens – shared with a group of other students.
- Communal areas for chilling and catching up with friends.
- Laundry facilities and bike stores.
- CCTV and security team for peace of mind.
- Bills included – so no unexpected costs.

You can browse the different places you might end up calling home – and see full details of facilities at **uwe.ac.uk/accommodation**

Explore all our accommodation

When you visit for Open Day or interview, be sure to ask about accommodation. Or flip back a page for an overview of what's waiting for you at our Frenchay, Glenside and City campuses.

DID YOU KNOW?

You can pick your own herbs and fruit on every UWE Bristol campus. That's a fresh healthy dinner sorted then.

“

You make really good friends with the people you live with.
They become your second family.”

Larry, BA(Hons) Banking and Finance

HOW TO USE OUR COURSE GUIDE AND DIRECTORY

When you're deciding on a course, it can feel like there's a lot of information to take on board.

To help you out, we've separated our course guide into two main sections:

1. Grouped by subject areas, pages 44–141 will give you an overview of the subject, reasons to choose UWE Bristol and some career ideas.
2. Looking for UCAS tariffs, entry requirements, professional accreditations and campus information? See the Course Directory, pages 152–184.

Finding the information you need

1. Course title and UCAS codes

All the courses we offer in this subject area, along with their unique UCAS codes. Courses that have a Foundation Year option are marked with an asterisk (*).

If you want to search for a course online, using the code is an easy way to do it.

2. Why study with us?

The stand-out features and unique opportunities that make UWE Bristol the place for you to study your course.

3. Career opportunities

A brief outline of where your course could take you.

4. Top facts

Don't just take our word for it – see what the experts say. These stats and facts are taken from the National Student Survey, independent league tables and graduate data research.

5. Page number and web link

Where to find these courses in the Course Directory towards the end of the prospectus.

6. Find out more

This is just a taster of our courses – there's lots more useful stuff online. Follow the link for the latest information about the programme you're interested in, as well as videos, research profiles, student stories and more.

Course Directory – pages 152–184

7. Entry requirements

The typical grades or qualifications you'll need to take your course, plus interview or portfolio requirements.

8. Campus

Which of our campuses the course is based on.

9. Professional accreditation

If your course has been endorsed by a professional body, we'll list it here.

10. Footnotes

Don't miss the small print – footnotes may contain extra detail you need to know.

MARKETING

Marketing is more than just advertising. It's about understanding human behaviour and using effective communication to influence action. Our courses will give you the practical experience and relevant knowledge you'll need to stand out in this fast-paced, dynamic industry.

You'll develop your expertise through course materials created with industry experts and taught by staff with professional experience. Build your confidence and practical skills through hands-on case studies and live projects, and support local start-ups with their marketing challenges.

Degrees

BA(Hons) Business and Events Management	NN21
BA(Hons) Business Management with Marketing*	N1N5
BA(Hons) Business Management with Marketing (Top up)	N1NW
BA(Hons) Marketing*	N500

*Foundation Year entry option available

Why study with us?

- You'll have the opportunity to take on placements with our partner employers, which include large multinationals as well as local enterprises, charities and agencies.
- Experience our £55 million Bristol Business School, with its Harvard lecture theatres, technology-enhanced teaching areas and social spaces specially designed to promote collaboration and creativity.
- Because these courses share a similar first year, you have the option to transfer between them once you have a clearer idea of what area of marketing you'd like to focus on.

We work closely with the Chartered Institute of Marketing, the Chartered Institute of Public Relations, and the Institute of Directors to ensure your learning is topical and rooted in best practice.

Career opportunities

Studying marketing gives you a skillset that will always be in demand. There are roles to suit all personalities, whether you love to network, or prefer a role behind the scenes.

You could become an advertising account executive, digital marketing executive, recruitment manager, sales manager, business analyst or brand/product manager. Our students have secured placements and graduate roles with companies as varied as GlaxoSmithKline, Intel, The Guardian, John Lewis, Disney and Coca-Cola.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 175**. Find out more about our Marketing courses here: uwe.ac.uk/subjects/marketing

Foundation degree or Foundation year?

Foundation degrees are a standalone qualification, representing about two-thirds of an honours degree. They focus on building workplace skills and have no set entry requirements. On completion you have the opportunity to top-up to a full honours degree.

Foundation years are offered as an additional introduction year to certain degrees. They allow you to get prepared for university before joining Year One of your course, particularly if you don't yet have the right qualifications to enrol straight away.

ACCOUNTING AND FINANCE

Solid financial reasoning is at the heart of every successful business, so skilled graduates are in consistently high demand. Equip yourself with the expert knowledge you'll need through one of our future-focused and practical courses.

You'll receive outstanding teaching from staff who are active researchers and have significant experience in the industry. Undertake a placement year with one of our influential employer partners, and network with professionals at the top of their game. Solve real-world challenges based on live case studies and simulations, and graduate with a skillset that will make you an asset to any organisation.

Degrees

BSc(Hons) Accounting*	N40K
BA(Hons) Accounting and Finance*	N40P
BA(Hons) Accounting and Finance (Top up)	N30H
BA(Hons) Accounting and Management*	N4NB
BA(Hons) Banking and Finance*	N300
BA(Hons) Banking and Finance (Top up)	N310

*Foundation Year entry option available

Why study with us?

- Based in our world-class £55m Bristol Business School, you'll benefit from purpose-built facilities, including Harvard-style lecture theatres and interactive learning rooms.
- Explore up-to-the-minute data and analytics in our Bloomberg financial trading room, which employs the same system used by city investment banks.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 152**

Find out more about our Accounting and Finance courses here: uwe.ac.uk/subjects/accounting

- Broaden your industry experience through placements and opportunities to interact with our leading industry partners, including Barclays, EY, GlaxoSmithKline and The Office for National Statistics.
- Enhance your CV and support the local community by taking part in our Business Clinics, providing pro-bono financial guidance to businesses.
- During your first year on any accounting course, you'll receive a firm grounding in the core elements of accounting and their real-world applications. You can then transfer between courses if you choose – either pursuing pure accounting, or combining it with finance or management.
- As an accounting student, you will also earn exemptions from professional exams during the course, enabling you to fast-track your career on graduation.

Career opportunities

UWE Bristol graduates have gone on to work at Lloyds Banking Group, HSBC, GE Asset Management, PWC, KPMG and Grant Thornton.

Other roles you might consider include auditor, banker, investment consultant, tax associate, accountant, financial planner or financial analyst.

the Built Environment

ART

Let us spark your creativity. Learn from active practitioners in a collaborative and supportive studio environment, based in a city renowned for its non-stop art scene.

You'll be challenged to push boundaries and develop new creative approaches. Attend talks by internationally-recognised artists, and take part in work and volunteering opportunities with arts organisations across the region. Develop your skills in a range of techniques using industry-standard equipment and facilities. Graduate ready to make your mark at a professional level in Bristol and beyond.

Degrees

BA(Hons) Drawing and Print*	W110
BA(Hons) Fine Art*	W101
BA(Hons) Illustration*	W224

*Foundation Year entry option available

Why study with us?

- Be inspired by City Campus, home of our creative industries courses. A powerhouse of creativity, it is made up of renowned contemporary arts centres Spike Island, Arnolfini and Watershed as well as our own Bower Ashton studios.
- Hone your techniques in industry-standard digital media studios, production and fabrication workshops and a drawing studio overlooking Bristol Harbour.
- Our exceptional print facility is one of the largest in the UK, and has gained us an international reputation for screen printing, lithography, relief print, etching, digital and new print technologies.
- Thousands of visitors, talent scouts and art professionals attend our annual Degree Show, giving you an unparalleled platform to showcase your work portfolio. Illustration students also display their work at D&AD, an internationally-renowned exhibition in London.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 154**

Find out more about our Art courses here:
uwe.ac.uk/subjects/art

- We've invested £7m in a new physical making and Art and Design studio, opening in 2019.

Career opportunities

Many of our graduates establish their own studios and exhibitions, building careers as artists, designers, curators, creative directors and educators. Past graduates include film directors, performers, arts administrators, illustration agents, visualisers, model-makers, animators, storyboard artists and puppeteers. You could also consider postgraduate study such as a Master's degree, or teacher training.

AUDIO AND MUSIC TECHNOLOGY

Emerging technologies and techniques are allowing us to express our creativity in more ways than ever. Get set to make your mark on the future of audio through our innovative, practice-based music technology courses.

Hone your recording, editing and mixing skills on industry-standard equipment, and tap into the eclectic Bristol music scene that produced artists like Massive Attack, Roni Size and Portishead. Immerse yourself in numerous musical opportunities on and off campus, in countless venues, studios and projects and through our celebrated Centre for Music.

Degrees

BSc(Hons) Audio and Music Technology*	J932
BSc(Hons) Creative Music Technology	WJ39

*Foundation Year entry option available

Why study with us?

- We'll support you to find a rewarding placement through our industry connections. Past students have worked in acoustics, recording and post-production for the BBC, Dolby Labs, The London Symphony Orchestra and Acoustic Design.
- Record and mix audio on professional-standard consoles. Edit videos in our video post room, and mix music in our advanced surround mixing room, control rooms and isolated booths.
- We'll bring your learning to life through fieldtrips, whether it's exploring the latest tools and formats at Dolby Labs, or experiencing technology and sound systems behind the scenes at the Royal Albert Hall.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 154**

Find out more about our Audio and Music Technology courses here:
uwe.ac.uk/subjects/audio

- Our students have composed music for BBC wildlife programmes, created podcasts for the Natural History Museum, and produced audio for festivals, radio, and local industry partners.

Career opportunities

You'll be suited for work in creative areas where there is a heavy reliance on technology such as film, theatre and the arts. You might choose to explore creative opportunities in performance, production and concert management, or seek out technical roles in audio and sound engineering or design.

Several leading tech firms such as Focusrite, Allen&Heath and ROLI/JUCE have actively recruited graduates and interns from the course.

100%

Source: DLHE (Destination of Leavers from Higher Education) Survey published 2018

“

The course gave me a really good foundation in several areas of music technology, helping me find the avenue that most appealed to me. The game audio specific module in particular let me dive into what I love doing now – working as an Audio Designer for video games at Ubisoft Massive Entertainment, Sweden.”

Tom

BSc(Hons) Audio and Music Technology

BIOSCIENCES

Give free rein to your natural curiosity, and join our community of inventive, enthusiastic scientists. Through exciting lab investigations, inspiring teaching and hands-on practice, you'll develop a strong grounding in the theory and practice of modern biomedicine.

Learn to handle the kind of specialist equipment you'll use in the working world, and get the insider's take on the profession from visiting experts. Prepare to kick-start your career in an area of science that has led to numerous medical breakthroughs.

Degrees

BSc(Hons) Biological Sciences*	C110
MSci Biological Sciences*	C11M
BSc(Hons) Biomedical Science*	C980
MSci Biomedical Science*	C98M

*Foundation Year entry option available

Why study with us?

- You'll get to work with major employers in the pharmaceutical or healthcare industry, with opportunities for placements, internships and volunteering. We have links with lots of employers, such as GlaxoSmithKline, Novartis, ICI, government laboratories including CAMR and Porton Down, and university research centres.
- Benefit from our well-equipped, modern science laboratories, with specialist apparatus for histology, haematology and biochemistry, molecular biology and cell culture. Use the latest instruments to measure human performance physiology, and discover the potential of light-based microscopy in our electron microscopy suite.

- Learn from highly experienced tutors who are actively engaged in research across the whole spectrum of related disciplines.

Career opportunities

Most graduates follow careers in biological sciences, particularly research and development work in the healthcare, pharmaceutical and education sectors.

As well as preparing you for a laboratory-based job, the course will give you the transferable skills employers value in a wide variety of roles, from medical sales and scientific writing, to quality control and health and safety.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 155**

BSc(Hons) Quantity Surveying and Commercial Management*	KN21
BSc(Hons) Real Estate*	K440

*Foundation Year entry option available

Why study with us?

- Inform and inspire your learning through regular site visits around Bristol. You'll also have the chance to explore European processes and techniques during field trips to destinations like Dublin, Germany and Spain.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 160**

Find out more about our Construction, Property and Surveying courses here:
uwe.ac.uk/subjects/construction

- Practise your skills in our specialist laboratories for concrete and environmental services, environmental physics, earth sciences, and surveying technology. Develop desktop publishing and computer-aided design (CAD) skills, and try your hand at model-making in our IT labs.
- Through our construction and real estate partners you'll access exceptional industry knowledge, placements and recruitment advice to ensure you're work-ready on graduation. Our contacts include BNP Paribas, the Chartered Institute of Building, Balfour Beatty, Interserve, Capita Symonds, Savills and Laing O'Rourke.
- Showcase your work to family, friends and potential employers in the final year degree show.

Career opportunities

After graduating, you can go into a range of careers across the public, private, residential and commercial sectors. Depending on the course you've studied, you could find work with housing associations, estate agents, property developers, surveyors, construction companies, local authorities and heritage locations.

96%

DESIGN

Want to design inspiring living spaces, compelling visual concepts or innovative new products? We'll match your passion and equip you with the knowledge and experience you'll need to make it a reality.

You'll benefit from ongoing input from professionals, thanks to our extensive links with Bristol's vibrant design industry. Work on live briefs for a range of clients, and be inspired by study visits to design studios, galleries, museums and design events in destinations such as Tokyo and Moscow. Strengthen your skills, confidence and contacts so that when you graduate, you'll hit the ground running.

Degrees

BA(Hons) Graphic Design*	W211
BA(Hons) Interior Design*	2C3W
BSc(Hons) Product Design*	W241
BSc(Hons) Product Design Technology*	W240

*Foundation Year entry option available

Why study with us?

- As a graphic or interior design student, you'll be part of City Campus – a creative powerhouse spanning the centre of Bristol and incorporating inspirational contemporary art centres like Arnolfini and Watershed.
- Attend talks and workshops led by industry experts. Our Graphic Design links include OK/RM, Pentagram and Moving Brands. Interior Design partners include Arup Lighting, Wyld IA and SJP Interiors, while Product Design students will interact with organisations like Jaguar Land Rover, Dremel Bosch and Mathmos. Many third year students also work with an industry mentor as part of our Design Buddy programme.
- Hone your techniques in exceptional facilities and resources, including digital studios and fabrication workshops which simulate industry. Create prototypes, and use 3D printers, laser cutters and computer numerical control routers in our product design workshop.
- Showcase the best of your work at our final year Degree show, where it'll be seen by talent scouts and employers. Graphic Design students also display their work at D&AD, an internationally-renowned exhibition in London.
- Past students have won awards in prestigious national competitions run by the Royal Society of Arts and the International Society of Typographic Designers. Our students are also regularly shortlisted for the Best British Book Design and Production Awards.

Career opportunities

These courses provide excellent preparation for a career in design, whether you choose to work in interiors, retail, furniture, packaging, user experience, products, lighting or graphic design.

Many of our graduates have found work with highly respected studios in the UK and worldwide, while others go on to establish their own freelance businesses or independent design companies.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 161**

Find out more about our Design courses here:
uwe.ac.uk/subjects/design

“

My course is set in the real world. Our tutors constantly update us on the opportunities out there – placements, work experience, visiting speakers, skills workshops. It gives you a fresh perspective on your future employability prospects.”

DRAMA, ACTING AND MUSIC

Take centre stage in a city that is brimming with creativity. Bristol's wealth of cultural activity means we can connect you with a spectrum of inspirational venues, performers and industry experts. You'll enjoy superb facilities, enthusiastic teaching and plenty of opportunities to gain practical experience and showcase your skills.

Join our community of creative individuals who are passionate, versatile and innovative, and graduate ready to shine in a range of careers.

Degrees

BA(Hons) Drama	W400
BA(Hons) Drama and Acting	W490
BA(Hons) Music and Sound Design	W384

Why study with us?

- With two theatres and a drama studio equipped with high-tech sound and lighting equipment and multi-purpose staging, you're guaranteed an ideal space to rehearse and perform.
- Our strong connections with renowned venues including Bristol Old Vic, Tobacco Factory and Arnolfini mean you'll experience world class theatre.
- Get behind the scenes and try your hand at directing, technical theatre and playwriting.
- You'll be based on City Campus, a creative powerhouse that spans the city and is made up of Bower Ashton, Spike Island, Arnolfini and Watershed.

Career opportunities

Employers from a range of industries value the practical, creative and intellectual skills of drama and music graduates.

Our students have gone on to careers in theatre, television, film, music and arts management. Some have chosen to take their study further with courses at prestigious centres like Bristol Old Vic, the London Academy of Music and Dramatic Art and the Central School of Speech and Drama.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 162**

“

The course has not only helped me to learn more about drama techniques and practitioners, but it's also allowed me to explore my future career paths. My favourite part has been learning to write my own plays, screenplays, radio plays and novels. It's made me realise that I can one day become an actor and I can also write something great myself.”

Jack

BA(Hons) Drama and Acting

ECONOMICS

Satisfy your curiosity about the way the world works. Economics has an impact on every area of our lives, so economists are always in demand. As a graduate you'll enjoy excellent job prospects as well as competitive salaries across a range of career paths.

Our courses focus on applying the latest economic theories to real and relevant challenges. You'll debate ideas from a range of perspectives, developing critical thinking and building the ideal foundation for any professional role or further study you choose to pursue.

Degrees

BA(Hons) Banking and Finance*	N300
BA(Hons) Banking and Finance (Top up)	N310
BA(Hons) Business Management and Economics*	NL14
BA(Hons) Business Management and Economics (Top up)	N1LH
BA(Hons) Economics*	L100
BA(Hons) Economics (Top Up)	L19G
BSc(Hons) Economics*	L190

*Foundation Year entry option available

Why study with us?

- You'll be taught by a passionate and enthusiastic team of research-active staff with a growing reputation for being at the cutting edge of new ideas in economics.
- Get to grips with contemporary issues in economics. Where does wealth come from? Is our way of life sustainable? How does the banking and financial system affect our lives? Is global trade a force for good?

For information on entry requirements, required grades and professional accreditations see our course directory on **page 163**

Find out more about our Economics courses here:
uwe.ac.uk/subjects/economics

- You'll be based in our state-of-the-art Bristol Business School, which incorporates technology-enhanced teaching areas, Harvard lecture theatres and purpose-built social learning spaces.
- Explore our Bloomberg financial trading room, where you can examine the latest company data and analytics as used by investment banks.
- Take advantage of our strong track record of securing placements with key public sector employers like the Treasury, the Home Office, and the Office of National Statistics and financial institutions such as Lloyds Bank and J.P. Morgan as well as charities, businesses and international organisations.

Career opportunities

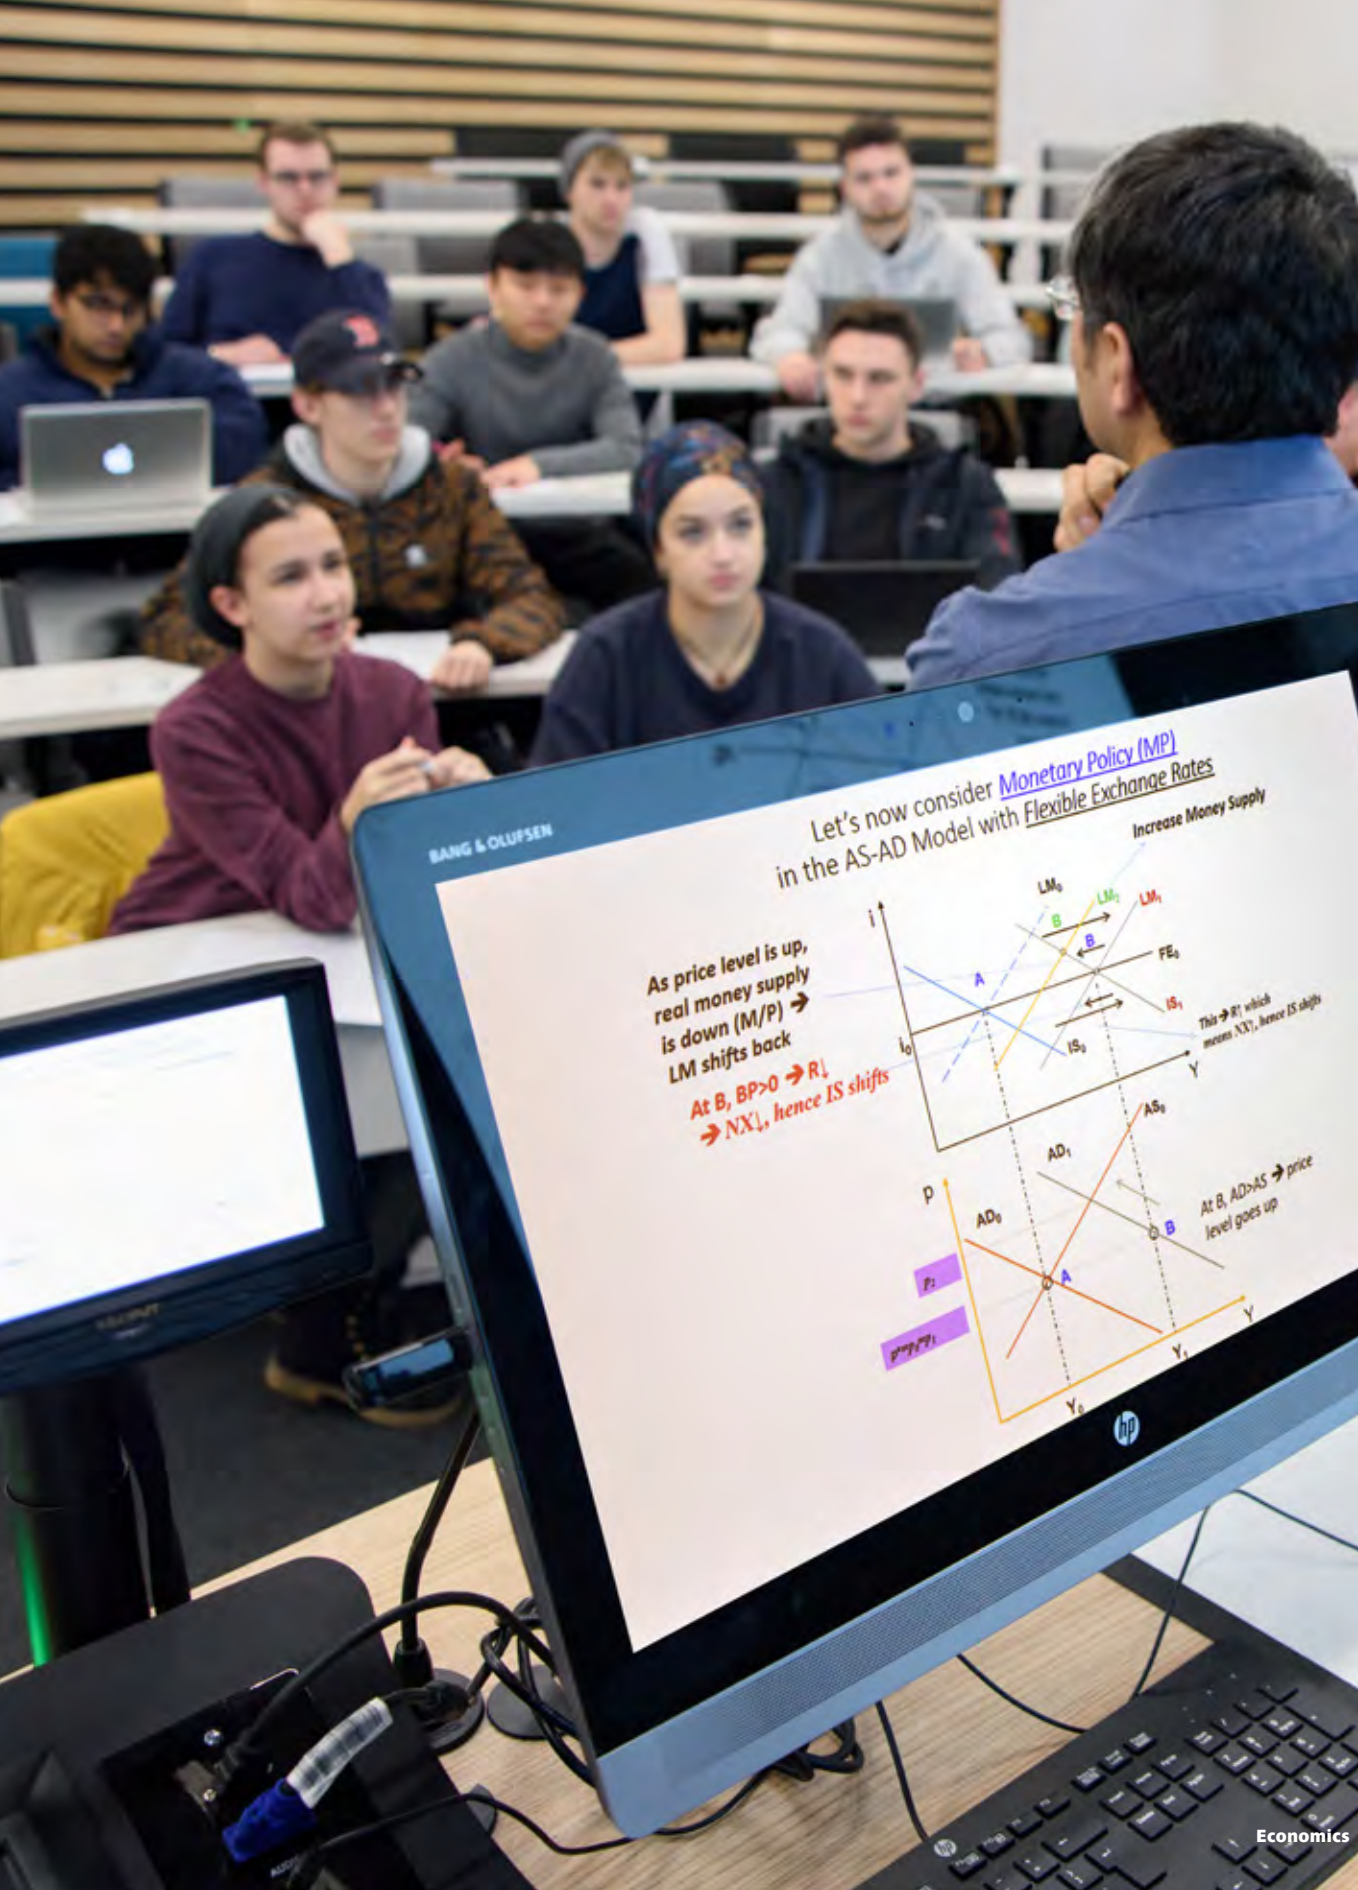

As an economics graduate, a wide range of sectors are open to you – from government and international organisations to banking and finance, retail and charities.

Our graduates work in a diverse range of roles from government economists to financial analysts, across private and public sector organisations, including the Government Economic Service, Hargreaves Lansdown, Lloyds Banking Group, HSBC, and Rolls Royce.

ENGLISH, HISTORY AND WRITING

Our students know the importance of stories, whether it's exploring historical accounts or penning narratives for the modern world. Wherever your passion lies, we'll help you translate it into a skillset that will prepare you for a rewarding and stimulating career.

Our courses combine creative and academic work with valued transferable skills. You'll learn from renowned academics and published researchers, and broaden your experience through engaging with some of Bristol's leading names in heritage and culture.

Degrees

BA(Hons) Creative and Professional Writing*	W810
BA(Hons) English and History*	QV31
BA(Hons) English Language and Linguistics*	QQ3C
BA(Hons) English Language and Literature*	Q390
BA(Hons) English Literature*	Q300
BA(Hons) English Literature with Writing*	0PC3
BA(Hons) History*	V100

*Foundation Year entry option available

Why study with us?

- Gain experience with our vibrant cultural partners, including the BBC, M Shed, Watershed, Arnolfini, the National Trust and Bristol Museums, Galleries and Archives.
- Sharpen your skills by writing for publications such as the Western Eye and Westworld, blogs such as UWE Bristol Lingo, and the English Society's Cellar Door magazine.

- Take advantage of our campus library, which houses all the resources you'll need to become a competent researcher. These include Literature Online, Project Muse and various digital archives and scholarly journals.
- Each of these courses offers you the opportunity to gain a Level 3 Award in Management accredited by the Institute of Leadership and Management.
- English language students can take advantage of summer internships with the Bristol Centre for Linguistics, where they can get directly involved with academic staff's latest activities, such as Sounds Bristolian and Place Names research.

Career opportunities

Choose from a variety of roles in writing, education, the arts, publishing, creative media, marketing, advertising and communications. History graduates in particular can find opportunities in the growing heritage sector.

You could also use your broad transferable skills in other rewarding careers, or go on to further study.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 167**

**Taught at University Centre Weston

Why study with us?

- Work with major employers and take up opportunities for placements, internships and volunteering. Our employer links include GlaxoSmithKline, ICI and Novartis, as well as the RSPB, Plymouth Marine Laboratory, the Environment Agency and Kew Gardens.
- Carry out investigations in our well-equipped analytical and computer laboratories, glasshouse and dedicated field centre.
- Biological Science students will have an impressive range of technologies at their fingertips – from cell culture suites and specialist apparatus for molecular biology, to the latest instrumentation for measuring human performance.
- Created in partnership with Bristol Zoo Gardens and part-delivered on their premises, the Wildlife Ecology course will give you unique access to the zoo's facilities and expertise.
- As a recent European Green Capital, Bristol is a recognised centre for environmental innovation. We're well positioned to help you tap into the opportunities on offer.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 168**

Find out more about our Environmental Science courses here: uwe.ac.uk/subjects/environment

Career opportunities

As a biological scientist, you can go into research and development for companies in the pharmaceutical, healthcare or agrochemical sectors. Alternatively you might look into sales, marketing or educational roles within the sector.

Our Environmental Science and Conservation graduates have taken their skills into internationally-renowned organisations such as the International Union for Conservation of Nature (IUCN), Thames Water, the Environment Agency and the Woodland Trust. You could work in wildlife conservation and research, media and wildlife filmmaking, and environmental management and consultancy.

“

This degree changed my entire perspective on life. It helped me see the bigger picture of life and the world as we know it. I feel as though I used to look at the world through a keyhole and now I've opened the door.”

FASHION

Do you have a flair for creativity, an eye for popular culture and a love of fashion? We'll help you develop your own distinctive identity, whether you're creating garments and images or writing about them.

These practice-focused courses will give you valuable opportunities to learn from the professionals. You'll attend interactive workshops, visit galleries and studios, and work with our partners to deliver live briefs. Taught by passionate industry experts with strong connections to the fashion world, you'll gain the skills, drive and experience to make your name in this exciting field.

Degrees

BA(Hons) Fashion Communication*	W2P2
BA(Hons) Fashion Textiles*	W23A

*Foundation Year entry option available

Why study with us?

- Hone your industry knowledge through a work placement with one of our influential partners. Assist on live shoots and see projects you've supported in print. Past students have worked with labels such as Julien Macdonald, Alexander McQueen, JW Anderson, Vivienne Westwood, French Connection and Antiform.
- Get behind the scenes of the fashion industry at national and international trips to agencies, factories and events, from Europe to the Far East. Source new materials and conduct research in galleries and museums, and attend major international events such as Premier Vision Paris and London Fashion Week. Visit companies such as WGSN and find out about trends before they happen.
- At the final year Degree Show you'll have the chance to present your portfolio to talent scouts and influential employers from the industry.

- You'll be based at our City Campus, a creative powerhouse that spans the city and is brimming with inspiration.
- Our Creative Skillset accredited BA(Hons) Fashion Textiles course has a strong sustainability focus, and will give you the opportunity to master technologies such as digital print, digital embroidery and smart textiles.
- Our BA(Hons) Fashion Communication has produced Graduate Fashion Week award-winners across several categories. Our students take on placements, internships and live projects with world-leading brands, magazines and designers such as Lazy Oaf, Dazed and Confused and Peregrine Clothing.

Career opportunities

Choose from a variety of professions across the fashion industry. Potential careers include fashion designer, photographer, stylist, studio manager, trend forecaster, fashion editor, journalist, social media manager, brand manager, copywriter, fashion buyer, online visual merchandiser and events manager.

Many of our graduates go on to successful careers with high profile companies like Vivienne Westwood, Victoria Beckham, H&M, Primark, Topshop, All Saints and Next. Others set up their own business, or go into postgraduate study and research.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 169**

Find out more about our Fashion courses here:
uwe.ac.uk/subjects/fashion

“

The course is very open to exploring personal interests within fashion communication – whether we make films, publications or installations. This industry is all about innovation, so the fact that we are able to be as innovative and original as we want is really motivating!”

Lauren

BA(Hons) Fashion Communication

FILMMAKING, ANIMATION AND PHOTOGRAPHY

Are you imaginative, curious and enterprising? We'll help focus your passion and combine it with career-shaping expertise. Our courses are designed with input from sector leaders – from the BBC and Aardman Animations, to the Royal Photographic Society. You'll learn cutting-edge techniques, visit professional studios, attend masterclasses and work on multi-disciplinary projects.

Be inspired by the creative culture of Bristol, a world-leading film centre and UNESCO City of Film, and showcase your work to talent-spotters at annual Degree Shows, exhibitions and film premieres.

FORENSIC SCIENCE

Discover how science is used to unravel the mysteries of a crime scene. Designed with input from experienced professionals, our courses will give you an in-depth understanding of the scientific methods used in criminal investigations.

Your academic learning will be balanced by countless opportunities to get hands-on experience. Learn how to find, interpret and present evidence in a variety of realistic scenarios, including a mock courtroom and specially-designed crime scenes. Study with us and you'll be set for a fascinating career in the justice system and beyond.

Degrees

BSc(Hons) Forensic Science*	F410
MSci Forensic Science*	F41M

*Foundation Year entry option available

Why study with us?

- Put your skills to the test in outstanding facilities. You'll investigate simulated crime scenes in our specially-adapted Crime Scene House, and learn to use forensic instruments in professional-standard laboratories.
- Conduct presentations and present evidence in our mock courtroom, or through Second Life simulations in our dedicated Digital Technologies Suite.
- Attend guest lectures with forensic science professionals, including members of the Avon and Somerset Constabulary Scientific Investigations and a local Home Office forensic pathologist.
- Through our thriving Forensic Science Society, you can attend presentations from world-leading practitioners, and be the first to hear about relevant events and conferences.

Career opportunities

Your scientific and legal expertise, combined with an enquiring mind, will appeal to a range of employers.

Our students have gone on to work with some of the country's largest forensic science providers, including LGC Forensics, Orchid Cellmark and Key Forensics, as well as in a range of roles with the police. Many students opt for postgraduate study, particularly in toxicology, forensic anthropology, osteology and archaeology.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 171**

Foundation Degree

FdA Uniformed and Public Services	L900
-----------------------------------	------

*Foundation Year entry option available

**Taught at University Centre Weston

Why study with us?

- You'll be taught by a well-informed, enthusiastic team who are dedicated to making their subject accessible and engaging. According to the National Student Survey 2018, 100% of BSc(Hons) Geography students felt that staff are good at explaining things and made the subject interesting.
- Our specialist physical and computer laboratories contain everything you'll need to investigate flood risk, soil mechanics, climate change, tectonic processes, water quality and social inequality.
- Your course will go beyond the theories to explore their real-world application.
- You'll reinforce your learning through a variety of fieldwork opportunities both locally and abroad, including an opportunity to take part in a two-week international expedition. Past destinations include Iceland, China, Kenya and South Africa.
- Because our teaching teams represent a variety of academic and industry backgrounds, your learning will be inspired by real-world experiences and perspectives.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 172**

Find out more about our Geography and Environmental Management courses here:
uwe.ac.uk/subjects/geography

Career opportunities

As a geography graduate, you will benefit from a degree that develops a wide range of skills and knowledge that you can apply to a variety of career paths. Graduates who have opted to work in the environmental sector have found employment with consultancies, local government and public-sector agencies.

Employers are as varied as the Environment Agency, Ordnance Survey, Ecotricity, Skanska, Ministry of Defence and Natural England.

A qualification in geology opens up doors to a career in geotechnical engineering, engineering geology, environmental consultancy, hydrogeology, oil and gas industries, quarrying and mining.

Both fields lend themselves to opportunities in research and education.

“

I'm an Education Coordinator at ORCA headquarters, looking after community outreach, delivering workshops, managing a team and acting as a wildlife guide and conservationist. I've no doubt that my degree gave me the skills and confidence to achieve my goals and find my dream job. It's got me exactly where I wanted to be.”

BSc(Hons) Radiotherapy and Oncology	B822

Foundation Programme

Foundation Programme Health Professions	B900
---	------

Why study with us?

- Whichever course you choose, you're guaranteed to be working with the latest technology and equipment. Prepare yourself for real-world scenarios through simulations and role-play in our specialist facilities, including the Skills Simulation Suite.
- You'll gain confidence using highly specialised equipment. Our Virtual Linear Accelerator, fully-equipped digital x-ray suite, Eclipse radiotherapy planning system and virtual reality x-ray laboratory

are all used in real-life diagnostic and therapeutic radiography settings.

- Optometrists will get to grips with the latest optometry equipment in our brand new £3.3 million optometry training suite, and treat real patients in a specialist onsite clinic.
- Gain essential practical experience on placements in a range of settings, including specialist hospital units, social care services, community support teams, emergency departments, operating theatres and the ambulance service.
- Support your learning through Glenside's renowned health and social care library.

Career opportunities

There are many exciting career opportunities for healthcare graduates in NHS hospitals, specialist centres and private practices, both in the UK and abroad.

Optometrists may also choose to work for lens manufacturers, optical laboratories or charities providing eye care services, while past Radiotherapy students have received Society of Radiographers funding to pursue work in countries including Ghana, Tanzania, Nepal, Sri Lanka and Argentina.

Most paramedic graduates go into roles in the emergency ambulance service.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 173**

JOURNALISM, MEDIA AND PUBLIC RELATIONS

The media world is fast-paced, dynamic and varied, giving you opportunities to investigate real-life issues and interact with a broad spectrum of people. Our future-focused courses will equip you with all the tools you need to identify, research and present compelling stories in a rapidly-changing industry.

Teaching centres on hands-on learning, both in our well-equipped studios and through live briefs. We'll support you to secure exciting work opportunities with our partners, and ensure you graduate with an impressive portfolio that will make you stand out amongst the competition.

Degrees

BA(Hons) Broadcast Journalism*	P500
BA(Hons) Journalism and Public Relations*	PP52
BA(Hons) Media and Cultural Production*	PL36
BA(Hons) Media and Journalism*	P251
BA(Hons) Media Culture and Communication*	P30C

*Foundation Year entry option available

Why study with us?

- Develop your expertise in the latest technologies through our exceptional facilities and resources. Our media studios incorporate fully equipped PC and Mac-based editing suites, a newsroom, TV and radio studios and editing suites, all built to the same standard you'd see in professional studios.
- Showcase your work to talent scouts and potential employers at the final year Degree Show.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 174**

Find out more about our Journalism, Media and Public Relations courses here:
uwe.ac.uk/subjects/media

- Our strong links with Bristol's thriving media community mean you'll benefit from regular guest lectures and take on work placements at companies like the BBC, The Post, Bristol 24/7, South West News Service and TechSpark, alongside other media outlets.
- Get a feel for real-world practices through field trips throughout the UK and visits to newspapers, magazines and press and PR companies.

Career opportunities

As a graduate you'll be an adept, flexible communicator and accomplished researcher. You'll find your skills are highly transferable and invaluable to any number of job roles.

As well as classic journalism, content production and PR posts, you'll be well placed for a career as part of a communications team in the cultural industries, national and local government, charities or private business. Graduates of these courses include television and radio reporters, marketing specialists and editors as well as writers, online video specialists and video journalists.

“

I chose UWE Bristol's Journalism and PR course for its practical nature. Our PR assignments were based on real companies, and when I'm working on a task now, I can often relate it directly back to something we did at university.”

LAW

Are you driven by a sense of justice and equality? Do you aim to succeed in the world of commerce and industry? Invest your passion in acquiring the professional skills and knowledge that let you contribute effectively to your communities and enterprises. At UWE Bristol, you'll be taught by experienced academics, solicitors and barristers who'll prepare you for a range of rewarding career opportunities, from modern legal practice to a wide variety of other professional and business roles.

We've been offering legal education for over 40 years, so we have long-established links to national, regional and local law firms and the Bristol Law Society. Our combined experience and knowledge will help you to develop the broad skillset and confidence that will enable you to succeed in any professional career.

Degrees

BA(Hons) Business and Law*	NM11
BA(Hons) Business Management with Law*	NM1A
LLB(Hons) Commercial Law*	M221
BA(Hons) Criminology and Law*	MM19
LLB(Hons) European and International Law*	M121
LLB(Hons) Law*	M100
LLB(Hons) Law and Business*	NM1B

*Foundation Year entry option available

Why study with us?

- Bristol Law School is based in our state-of-the-art, purpose-built Business School, giving you access to Harvard lecture theatres and two mock courtrooms.
- Your learning will be enhanced by collaborations with our many partners, including North Bristol Advice Centre, Avon and Bristol Law Centre, Talking Money and The Personal Support Unit, alongside a number of legal services providers such as TLT, Gregg Latchams, Osborne Clarke and DAS Law.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 175**

Find out more about our Law courses here:
uwe.ac.uk/subjects/law

- You'll benefit from an extensive programme of talks given by law firms and chambers throughout the year, as well as the annual Law Fair.
- Enrich your real-world experience through study, research and career development. Recent study visits include Shepton Mallet Prison, the Supreme Court of the UK, and an opportunity to investigate international mediation in the US.
- Grasp the opportunity to develop your skills through university, national and international competitions in mooting, interviewing, advocacy and mediation. Work with small businesses and individuals through our wide range of award-winning pro bono activities. To date, our students have helped win back over £1 million for clients entitled to disability benefits.
- Make the most of sought-after inter-disciplinary experiences offered through collaborations with UWE Bristol's wide range of departments.

Career opportunities

Employers value law graduates because of the range of skills and qualities they bring to a role. You could seek a legal career as a solicitor, barrister, legal adviser, legal executive or paralegal or you might go into a different sector such as HR, teaching, business or the public sector. Alternatively you could pursue your academic ambitions with a postgraduate degree or PhD with us.

Our graduates have secured roles with law firms such as Foot Anstey, Burges Salmon and Clarke Wilmott, as well as Queen Square Chambers, Guildhall Chambers and Invictus Chambers.

MARKETING

Marketing is more than just advertising. It's about understanding human behaviour and using effective communication to influence action. Our courses will give you the practical experience and relevant knowledge you'll need to stand out in this fast-paced, dynamic industry.

You'll develop your expertise through course materials created with industry experts and taught by staff with professional experience. Build your confidence and practical skills through hands-on case studies and live projects, and support local start-ups with their marketing challenges.

Degrees

BA(Hons) Business and Events Management	NN21
BA(Hons) Business Management with Marketing*	N1N5
BA(Hons) Business Management with Marketing (Top up)	N1NW
BA(Hons) Marketing*	N500

*Foundation Year entry option available

Why study with us?

- You'll have the opportunity to take on placements with our partner employers, which include large multinationals as well as local enterprises, charities and agencies.
- Experience our £55 million Bristol Business School, with its Harvard lecture theatres, technology-enhanced teaching areas and social spaces specially designed to promote collaboration and creativity.
- Because these courses share a similar first year, you have the option to transfer between them once you have a clearer idea of what area of marketing you'd like to focus on.

- We work closely with the Chartered Institute of Marketing, the Chartered Institute of Public Relations, and the Institute of Directors to ensure your learning is topical and rooted in best practice.

Career opportunities

Studying marketing gives you a skillset that will always be in demand. There are roles to suit all personalities, whether you love to network, or prefer a role behind the scenes.

You could become an advertising account executive, digital marketing executive, recruitment manager, sales manager, business analyst or brand/product manager. Our students have secured placements and graduate roles with companies as varied as GlaxoSmithKline, Intel, The Guardian, John Lewis, Disney and Coca-Cola.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 176**

MATHEMATICS

Maths is all around us. It forms the foundation of many of society's everyday interactions, as well as some of our most mind-blowing achievements.

Our passionate teaching team will motivate and support you as you explore this compelling field.

You'll expand on the theory by applying your learning through work placements and live projects.

Learn to process and evaluate data using industry-standard software in our well-equipped computer labs, and leave university with a highly attractive skillset.

Degrees

BSc(Hons) Mathematics*	G101
MMath Mathematics	G102
BSc(Hons) Mathematics with Qualified Teacher Status*	G1X9

*Foundation Year entry option available

Why study with us?

- Apply your knowledge in the real world through work placements with our partners. We have close links with the Office for National Statistics, the Higher Education Funding Council for England, the Welsh National Assembly and Lloyds Banking Group.
- Get involved in hands-on learning through student internships, live projects, study abroad, and activities and talks organised by professional societies.
- Draw inspiration from a teaching team who love their subject. Representing a range of backgrounds and experiences, our lecturers employ a variety of teaching styles to bring your learning to life.

- We offer a number of study support options for Mathematics students. Enhance your learning through lecture capture, interactive software, online e-assessment, weekly forums and a maths resource centre.

Career opportunities

A Mathematics degree will open up a broad range of careers and postgraduate study. You could go on to work in scientific research, health, business and finance, the civil service, or management and teaching, amongst many others.

Our graduates work for the Office for Students, Amazon, the Office for National Statistics, Bank of Ireland and the Ministry of Defence.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 177**

PHILOSOPHY AND POLITICS

If you're fascinated by life's big issues and motivated by a desire to understand people and communities, philosophy and politics are for you. We'll help transform your curiosity into a valuable skillset that will prepare you for the world of work.

You'll learn how to analyse complex issues from different perspectives, present logical, reasoned arguments, and communicate ideas with clarity and precision. Through hands-on experience and inspirational teaching, you'll develop a winning combination of academic knowledge and practical skills.

Degrees

BA(Hons) Philosophy*	V500
BA(Hons) Politics and International Relations*	L290

*Foundation Year entry option available

Why study with us?

- Participate in regular research events where you can debate contemporary issues and strengthen your communications skills.
- Take advantage of a diverse range of work-based learning opportunities, including work placements, opportunities to teach in schools, organise conferences and volunteer with our industry contacts.
- Build knowledge and intercultural understanding through an optional study year in Europe or America. We have partners across a range of businesses, NGOs and health service organisations in the UK and further afield.

- Join our thriving, student-run Philosophy and Politics Societies, and broaden your academic experience through discussions with guest speakers, reading groups and social events.
- You'll be taught by experts in the field, tackling cutting-edge issues and drawing on experts from industry and the academic world. As well as traditional lectures, you'll learn through innovative teaching and assessment formats designed to appeal to a range of learning styles.

Career opportunities

As a politics or philosophy student, you'll develop broad transferable skills that are highly valued by employers - from critical thinking and analysis, to reasoning and debating.

You could go into a diverse range of sectors, including teaching, academic research, law, finance, the creative industries, healthcare, social work, not-for-profit organisations or the civil service.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 179**

BA(Hons) Philosophy

PHYSIOTHERAPY, OCCUPATIONAL THERAPY AND SPORT REHABILITATION

Support people to get back to doing what they love. These hands-on, practical courses will give you the skills and know-how you need to make significant changes to a person's quality of life.

Our friendly, accessible academic team have a wealth of experience to share, as well as strong connections with health and social care providers and industry. You'll have countless opportunities to engage with service users and professionals through placements, guest presentations and volunteering. So when you graduate, you'll be equipped with all the tools you need to guide patients along the road to recovery.

Degrees

BSc(Hons) Occupational Therapy	B920
BSc(Hons) Physiotherapy	B160
BSc(Hons) Sport Rehabilitation	BC96

Foundation Programme

Foundation Programme Health Professions	B900
---	------

Why study with us?

- Your placements will be enhanced by our excellent links with leading employers across the South West, including the NHS, private and voluntary sector organisations, fitness centres and rehabilitation units.
- Sport rehabilitation students will interact with elite sports teams such as Bath Rugby, Bristol City FC, Bristol Rovers and Gloucestershire Cricket. You'll also get the chance to provide services to clients in our onsite injury clinic.
- Develop hands-on skills in our simulated environments, and practise manual and electrophysical therapy in our well-equipped practical rooms. Get to grips with specialist equipment for fitness testing, performance enhancement and rehabilitation.
- During your course you'll be based at Glenside, our specialist campus dedicated to health and social care. You'll mix with people who share your passion and who understand the unique challenges of training in this field.
- Glenside library also houses a huge selection of books, journals, audio-visual materials and specialist healthcare software to support your learning.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 180**

Find out more about our Physiotherapy, Occupational Therapy and Sports Rehabilitation courses here: uwe.ac.uk/subjects/physio

Career opportunities

As a graduate, you'll find work opportunities in the NHS, local authority services and housing departments, and independent or third sector organisations. Sport rehabilitation practitioners could also choose from sports injury clinics, health clubs, professional fitness centres, or the military.

Alternatively you could choose to establish your own private practice, or take your studies further with one of our postgraduate courses.

“

I owe a lot to the lecturing team at UWE Bristol who were knowledgeable, supportive and friendly. With their support I established skills in applying theoretical principles into clinical practice, and developing and challenging my clinical reasoning – skills I use daily as a physiotherapist.”

PLANNING

Experience the buzz of seeing an idea become reality in an industry where every project is different.

Planners seek to improve our urban and rural environments, collaborating with others to create places that are inclusive, healthy and safe. They have a leading role in the delivery of homes, jobs and infrastructure, creating projects that are well-designed, financially viable and politically acceptable.

You'll work on live briefs for real clients, draw inspiration from global case studies, and see planning brought to life through field trips and study visits. Graduates are empowered to deliver positive change to the communities in which they work.

Degrees

BA(Hons) Architecture and Planning*	KK14
BA(Hons) Geography and Planning	L7K4
BA(Hons) Property Development and Planning*	K430
BSc(Hons) Urban Planning*	K401

*Foundation Year entry option available

Why study with us?

- You will explore live and inspirational planning solutions from across the UK and the wider world. You'll respond to wide-ranging project briefs that will allow you to work with practising planners, community leaders and a wide range of other key stakeholders.
- Build your technical and creative skills through computer-aided design (CAD), model-making, mapping, design and drawing in our collaborative workshops. Access support with photography, digital imaging and filming.
- Enhance your personal and professional development through access to our industry networks, which include renowned organisations such as Barton Willmore, Savills and Capita.

For information on entry requirements, required grades and professional accreditations see our course directory on **page 181**

Find out more about our Planning courses here:
uwe.ac.uk/subjects/planning

- Collaborate with students from other disciplines, giving you a valuable understanding of the different professions you will interact with during your career.
- Take the opportunity to build your professional experience through a placement with one of our partners. Past students have worked with Bristol City Council, Turley and GVA.

Career opportunities

The planning sector offers multiple career opportunities. Planners can work for a variety of organisations, including local authorities, planning consultancies, government agencies and developers in the housing, commercial and infrastructure sectors.

Some of our graduates pursue a career in planning, going on to become chartered members of the Royal Town Planning Institute. As a planner you may also choose to specialise in a particular area such as transport, conservation, energy or environmental assessment.

SOCIAL WORK

Play a vital role in supporting the wellbeing and safety of children, adults and families.

You'll draw inspiration from a teaching team with diverse professional and lived experience, and develop the critical understanding you'll need to make informed decisions and effective plans. Gain valuable experience at a range of placement settings chosen from our close network of partners. On graduation, you'll be a skilled social worker with the professional expertise, knowledge and real-life experience you need to begin a successful, rewarding career.

Degrees

BSc(Hons) Social Work

L500

Why study with us?

- Based within our dedicated health and social care community at Glenside, you'll start building relationships with like-minded students of different health and social care disciplines from day one.
- Learn directly from practitioners, service users and carers alongside our well-connected academic team. Be inspired by a range of learning opportunities, from small group discussions and expert lectures, to inter-professional conferences
- Collaborate to simulate team, planning and inter-professional meetings, and bring case studies to life in our brand-new simulation space.
- Build confidence and experience in a variety of placement settings. We have strong, well-established connections with a range of statutory, voluntary, private and independent organisations, who we support with continued training.

Career opportunities

When you complete your course, you'll be eligible to register with the Health and Care Professions Council and begin practice as a qualified social worker with adults and children.

Social work graduates can pursue a career in a wide range of statutory and voluntary contexts, and are likely to gain employment soon after graduation. You may choose to specialise in working with children and families, adults with disabilities, domestic abuse, substance use, homelessness or mental health.

Social worker,
BSc(Hons) Social work

THE APPLICATION PROCESS

1. Making your application

Check the entry requirements

Once you've fully researched the courses we have on offer at uwe.ac.uk/courses and if you decide to make an application, please check you meet, or are working towards, the appropriate entry requirements for your chosen course. In addition to the specific requirements outlined on individual course pages, you should be aware of our general information on entry requirements uwe.ac.uk/ugapply

Applications for full-time study

Apply online through UCAS for entry onto all degrees including foundation degrees and those with foundation years. You need to go through UCAS even if you're applying for the second or third year of a course. You'll be guided through the straightforward online application process at ucas.com. Some of our courses are highly competitive and are therefore unlikely to consider late applications. You should ensure wherever possible you apply prior to the 15 January UCAS deadline.

We are of course happy to consider applications submitted after the January deadline for courses which have vacancies. Courses without vacancies will be highlighted on our website. Key dates throughout the process, including UCAS deadlines, can be found at uwe.ac.uk/timeline.

Applications for part-time study

Applications for all part-time undergraduate courses are made directly to us or our local study partners. For further information please visit our course pages at uwe.ac.uk/courses.

International student applications

As well as applying through UCAS, international students can apply through one of our overseas representatives. See uwe.ac.uk/international for contact details of our representatives in your home country. This service is free.

Deferred entry

In most cases we're happy to accept applications from students wanting to take a gap year. But there are some courses which don't accept applications for deferred entry. This is made clear online on the relevant course pages uwe.ac.uk/courses. If you decide after you've applied you want to defer, you'll need to contact our Admissions Team for advice.

Courses subject to approval

If the degree you're interested in is marked 'Subject to final UWE Bristol approval', applications should still be made in the normal way. The website information will be kept up-to-date regarding the approval status of a programme uwe.ac.uk/courses. Applicants holding an offer on such a programme will be notified of changes through their UWE Welcome website.

Advanced entry

If you've already obtained a qualification in, or can demonstrate you have studied relevant subjects at a level equivalent to Higher Education, you may be considered for exemption from part of the course. Please upload full details of your qualification via your UWE Welcome website, once you've applied, for our consideration.

Welcoming diversity

Equality of opportunity is one of our core values at UWE Bristol. We welcome applicants from a wide range of academic and social backgrounds. We consider each application on the basis of an applicant's suitability for the course applied for, at the same time acknowledging the statutory requirements of the University and relevant professional organisations.

We are committed to enabling equality of opportunity in access to study courses, assessment and in developing and delivering the curriculum. We aim to provide a working and learning environment free from any kind of discrimination or harassment. We encourage staff and students at all levels in the organisation to commit to these values.

Disabled students

We welcome applications from disabled students, whether it's physical health, mental health or specific learning difficulties such as dyslexia. Approximately 15% of our current students have declared a disability.

We've pulled together some really useful information for you regarding the application process. But if you still have queries about applying to UWE Bristol, we're always happy to answer them. Simply email admissions@uwe.ac.uk or call us on +44 (0)117 32 83333.

Please disclose any relevant conditions or difficulties on your application form, so we can start to explore your needs with you. If you do disclose, we'll ask you to provide more information about any access and support needs you might have.

Following this, we'll offer you advice and in some cases, invite you to speak or meet with us in advance of your course starting. We'll help you with reasonable adjustments, support and equipment, including funding. And we'll be happy to help with any questions you have at any point in the process.

You can tell us you are disabled at any time and if you do, we'll only share this information with staff involved with organising your support and reasonable adjustments. It's best to disclose at application stage if possible. The information you disclose will not have an impact on whether you are made an offer to study with us.

Criminal convictions

If you are applying for a course which is subject to a Disclosure and Barring Service (DBS) check, you must declare it on your application form. We may ask you to provide further details of the nature of the conviction. We will not be able to continue considering your application until this information has been provided. Further information on the admission of applicants with criminal convictions is available from our Admissions Team.

2. Considering your application

As soon as we receive your application we'll email you login details for your personal UWE Welcome website. This gives you access to track your application. We'll get in touch with you via this website throughout the application process, automatically updating it as soon as anything changes. If you've applied for more than one of our courses, your site will show details and communications about them all. We'll encourage you to check this site regularly and to set admissions@uwe.ac.uk as a 'trusted' email source to ensure useful updates are not missed. We'll carefully consider your application and aim to notify you of an update within 14 days.

Typical communications are:

- If we're able to make you an offer you'll be sent lots of useful information regarding your course and relevant University policies.
- We may require further information from you in order to make a decision on your application. This will be requested by email and through your UWE Welcome website.

- For some courses you may be sent an invitation to attend an interview/ selection event. This will be through your UWE Welcome website and contains all the information you'll need to prepare for the day. Please note information concerning your interview will only be viewable on your UWE Welcome website. UCAS will not be updated to reflect the fact you are invited to interview.
- Some courses require you to submit a portfolio of work. This will be requested by means of an e-portfolio facility within your UWE Welcome website.

To enable us to consider your application in a timely manner, you should ensure your UCAS application is as detailed as possible.

3. What happens next?

If your course offers an Offer Holder Day you'll receive a personal invitation through your UWE Welcome website shortly after you've received your offer. Building on the Open Day experience, these events give you the chance to explore your chosen course in much more depth. In many cases we try to run more than one Offer Holder Day per course.

If you decide to firmly accept our offer, you'll be sent details to apply for our accommodation. Those applicants who choose UWE Bristol as their UCAS insurance choice will not be eligible to apply for accommodation at this time. Full details of the accommodation process and available options can be found on our website uwe.ac.uk/accommodation.

Your course may require occupational health clearance and a Disclosure and Barring Service (DBS) check to be provided. Details of how to complete these will be sent to you, if applicable, normally from early May onwards.

The right to cancel

Should you accept an offer to study with us, you have the right to cancel your place within 14 days of acceptance of the offer. To exercise the right to cancel you may use the form at uwe.ac.uk/ugapply which can be found under the section 'Offers and confirmation'. Alternatively you can send a clear statement of the decision to withdraw to our Admissions Team by email or letter within the 14 day cancellation period.

Keeping in touch

We'll continue to send you useful information from when you apply to when you start your course. This may include reminders on when to apply for student finance as well as detailed joining instructions in the summer.

Getting your results

If, when you receive your exam results, they don't match the conditions of your offer with us, check your status on UCAS or your UWE Welcome website as we may have already confirmed your place. Or contact us immediately to discuss the options available to you.

YOUR APPLICATION TIMELINE

2019

SPRING

Meet us at UCAS fairs and school visits

JUNE

Experience one of our Open Days (between June and November)

SEPTEMBER

Start your UCAS application and write your personal statement

Start researching your accommodation options

NOVEMBER

Attend a selection event for your course, if relevant (between November and May)

2020

15 JANUARY

UCAS deadline. Once you have made your application, our admissions team will be in touch with further information about applying for accommodation.

FEBRUARY

Come and see us at an Offer Holder Day (February/March)

Start applying for student funding

APRIL

Make your first (firm) and second (insurance) choice through UCAS

AUGUST

Results day and confirmation of your place with us

SEPTEMBER

Welcome week, induction and Freshers' Fair

ENTRY REQUIREMENTS

| UCAS tariff points

We make our offers using UCAS tariff points in conjunction with our minimum entry requirements. We accept points from all qualifications in the UCAS tariff. This means you can include points from a variety of qualifications, including (but not limited to): A and AS Levels (including General Studies and Critical Thinking); BTEC; Music and Drama; Welsh Baccalaureate; International Baccalaureate.

Please see the UCAS website ucas.com/ucas/tariff-calculator to calculate your UCAS Tariff points.

| What are our minimum entry requirements?

For an honours degree course without an integrated foundation year, you normally need two A Levels, or the equivalent, such as a BTEC Diploma or Extended Diploma, International Baccalaureate, or Access to Higher Education Diploma. For an honours degree course with an integrated foundation year, you would normally need one A level or equivalent. Please see our website for full details of all the qualifications which meet our entry requirements uwe.ac.uk/ugapply

Students who achieve the UCAS tariff points required (and have passed an English Language qualification) have almost always gained qualifications which meet our minimum entry requirements. However, if you have taken a number of other qualifications, (such as AS Levels or Music and Drama qualifications), you should contact us for advice.

| Required subjects

For some courses, we specify subjects and grades you must achieve. This is usually because you need to have reached a certain standard in a subject in order to succeed on the degree course. Subjects may be required at GCSE, or at A Level, Extended Diploma, IB, or equivalent. Some courses may offer a foundation year as an alternative entry point. It is really important you check you will have the required subjects for your course and contact us (or enquire at an Open Day) if you are unsure.

| English Language and Maths

We require an English Language qualification for all courses. We accept GCSE English Language grade C/grade 4, or IELTS 6.0 (International English Language Test) with no less than 5.5 in any one element in most cases.

Some courses such as Health and Social Care courses may require a higher IELTS. See course information for further details. uwe.ac.uk/courses

GCSE Maths and/or Science grade C/grade 4 is required for many of our courses. Please note: the following qualifications are not accepted by UWE Bristol as alternatives to GCSE Maths and English Language at grade C or above: Level 2 Key Skills in Communication and Application of Number; Level 2 Certificates in Adult Numeracy and Literacy; and Level 2 Functional Skills in Maths and English. Please contact us if you are unsure.

| Access courses

An Access to Higher Education Diploma is often the best route for adults without the academic qualifications normally required, but whose life and work experience has given them a strong motivation to go to university.

We'll consider applications for all our courses from those who are taking or have passed a QAA-recognised Access to Higher Education Diploma.

For courses which have 'required subjects' you normally have to include these subjects within your Access course. These specific requirements, including any grade requirements, are detailed on our course pages uwe.ac.uk/courses

| Integrated foundation year options

We offer a number of courses which include a foundation level entry year for those who need an additional year to gain the required subject knowledge before starting their chosen degree. The best way to explore these is to come to an Open Day, or you can contact us for advice.

You'll find entry requirements for each course on our website.

We've made them as straightforward as possible – and we explain below the different ways you can gain a place on the course of your choice.

Heading Higher Passport (HHP) Plus

HHP Plus is a widening participation scheme bringing together enrichment programmes taught in local schools and colleges in partnership with UWE Bristol. We provide a range of experiences and activities, which have the potential to raise aspirations and increase awareness of the opportunities available in Higher Education. The aim is to support learners in decisions about their future. To find out more uwe.ac.uk/schoolsandcolleges

Interviews, auditions and portfolio reviews

For some courses, we may ask you to attend a selection event such as an interview, audition or portfolio review as part of the admissions process. The individual course listings will tell you if this is a requirement in your chosen course.

Typically:

- Creative industries – applicants bring examples of their creative work (their 'portfolio') which they discuss with course tutors.
- Drama and acting – applicants come for an audition and discussion with course tutors.
- Initial teacher training and health and social care – applicants attend a selection event which may involve undertaking a test and having an interview with course tutors.

Initial Teacher Education (ITE) courses

In addition to meeting the entry requirements stated for the course you must:

- Satisfy the Department for Education about your suitability for the teaching profession and your ability to undertake a training course. For further information, please see the webpage for the course you're interested in.
- Provide a satisfactory Declaration of Health and a further declaration on criminal convictions (Disclosure and Barring Service clearance) before taking up the place.
- Show competence in the use of English Language and Maths – you must pass the Professional Skills Test in literacy and numeracy before starting the course.

Further information: <https://getintoteaching.education.gov.uk/eligibility-for-teacher-training>

Health and social care courses

In addition to meeting the academic entry requirements stated for the course you must:

- Demonstrate your suitability and ability to study the course. For further information, please see the webpage for the course you're interested in.

- Provide a satisfactory Declaration of Health and a further declaration on criminal convictions (Disclosure and Barring Service clearance) before taking up the place.
- Some courses ask you to show competency in the use of English Language and Maths.

International qualifications

We accept a wide range of international qualifications from all over the world. You will find full details on our website uwe.ac.uk/mycountry

Experience – but not the usual entry requirements

We can sometimes accept applicants onto a course who do not have the usual entry requirements, but who have substantial experience (usually a period of years) in a field closely related to the course. We need to be sure you are adequately prepared for the academic methods of teaching and assessment you will encounter on your course. Sometimes we will recommend you do an Access course or offer you a degree with an integrated foundation year instead.

FEES AND FUNDING

1. Tuition fee information

These pages offer an overview of fees, other costs and financial help available at the time of going to print. Please check our website for the latest information uwe.ac.uk/money

How much are the tuition fees?

Full-time study

At the time of going to print with this prospectus, the tuition fees for 2020/21 have not been set. Our undergraduate study fees in 2019/20 are £9,250 a year for UK and EU students and between £11,750 and £12,500 for international students. Fee information for UK and EU students studying a Foundation Degree at one of our local study partners can be found on our course pages uwe.ac.uk/courses

Living costs

If you're living away from home while you study, you'll need to cover costs such as accommodation, travel, bills and food. We've estimated between about £9,580 and £12,100 per year for a single student. This does not include tuition fees, mobile phone bills or unexpected bills.

A typical budget for 40 weeks might be:

	Weekly cost	Yearly cost
Accommodation or rent	£120–£150	£4,800–£6,000
Travel	£12–£20	£480–£800
Additional course costs (if applicable)	£7.50–£12.50	£300–£500
Household bills and food	£80–£90	£3,200–£3,600
Entertainment and socialising	£20–£30	£800–£1,200
Total	£239.50–£302.50	£9,580–£12,100

Part-time study

Tuition fees for part-time study are up to the pro-rata amount of the full-time equivalent. Please note that international students are not normally able to study part-time due to the immigration restrictions of the Tier 4 student visa.

Please see our website for updated information on all fees uwe.ac.uk/money

Indicative additional costs

Any additional costs given per course are what you could reasonably expect to incur during your studies and are for items not covered by the standard tuition fee. These could be for materials, text books, travel, clothing, software or printing.

2. What financial help is available?

What support is there for me?

There are many sources of funding, but for UK students most fall mainly into two categories: help from UWE Bristol and help from the UK Government. Some are repayable, some are not. It is important to check your entitlement before you start your studies.

Financial help from UWE Bristol

We aim to help make sure everyone with potential has the opportunity to study with us, regardless of social or financial background. We provide over £3.5 million to students each year through bursaries and hardship funds.

Bursaries (non-repayable)

We've a generous Bursary Scheme, which puts money in your pocket when you need it most – during your studies. The Bursary Scheme for 2019/20 entrants has not yet been finalised. Other non-repayable bursaries (such as business and sports scholarships) are available. For example, if you're an elite sports person, you could qualify for a full bursary and an additional support package.

University scholarships and grants (non-repayable)

There are some bursaries and scholarships available from individual departments. Please contact us or have a look at our website for further information. uwe.ac.uk/students/feesandfunding/fundingandscholarships

Financing your studies can be a bit of a juggling act. We can help and advise you, whether you're a UK student, EU, international, full-time, part-time, or any combination.

Student Support Fund (non-repayable)

We've a large fund for UK students who find themselves in financial difficulty while studying. Awards are generally between £100 and £1,000. In exceptional cases students may receive significantly more. We give priority to those who are unable to work part time due to a disability or caring responsibilities.

International scholarships (non-repayable)

Each year we offer a number of international and country-specific scholarships for international students. Most are partial tuition fee waivers, where payment is made against your tuition fee and reduces the amount you are required to pay.

Short-term loans (repayable)

We can provide small, interest-free loans to students in temporary financial difficulties (if, for instance, payment of your funding is delayed at the start of the year). For further details on funding, please visit uwe.ac.uk/money

Financial education

Learning how to manage your money is a crucial part of university life. We offer a wide range of support to help you feel confident managing your finances and develop essential money skills for the future.

Financial help from the UK government – tuition fees (UK and EU students only)

Tuition fee loan (repayable)

You can apply for a fee loan to cover your annual tuition fees. Previous study at higher education level can remove entitlement to the fee loan. Please note that at the time of printing this prospectus, this funding has not been confirmed for EU students. If you have questions or need further information about funding options for these courses, please contact us at admissions@uwe.ac.uk

Financial help from the UK government – living costs (UK students only)

Student Finance Living Cost loan (repayable)

This is available to full-time English-resident students from Student Finance England (SFE). If you are from Scotland, Northern Ireland or Wales, you can apply for funding from Student Awards Agency for Scotland, Student Finance Northern Ireland and Student Finance Wales. The loan is paid into your bank account at the start of each term. See below for terms and conditions of the fee and living cost loans.

Help for students with children (non-repayable)

There's additional support for UK students with dependants, including help with childcare. This additional support is income assessed.

Social work bursaries

If you are registered on a social work course, English-resident students may be eligible for a bursary in the second and third years of study, alongside the standard student funding.

State benefits (non-repayable)

UK students studying part time, or full time students who are disabled or who have dependants, may be eligible to receive benefits while studying.

Trusts and charities (non-repayable)

There are a large number of organisations who may provide additional financial support to students, but demand for these funds can be very high. You can find out more at gov.uk

3. Terms and conditions of the fee and living costs

The UK government lends you the money for your fees and, for UK students only, your living costs. Once you graduate, you start to pay it back when you're earning at least £25,725 per year (subject to change). At this point, 9% of your earnings above £25,725 per year will be deducted from your salary by your employer.

If you never earn above the threshold (£25,725), you will never repay the

Annual salary	Net monthly wage*	Monthly repayments
£20,000	£1,427	£0
£26,000	£1,767	£2.06
£36,000	£2,334	£77.06

* Based on 2019/20 Income Tax and National Insurance rates

loan. Thirty years after graduation any remaining debt is cancelled. Repayments are based on what you earn, not on what you owe. So whether your course costs £7,500 per year or £9,250 per year, you'll repay the same each month. Student loans do not go on your credit file.

COURSE ACCREDITATIONS

AOP – Association of Photographers

ARB – Architects Registration Board

BASRaT – The British Association of Sport Rehabilitators and Trainers

BCS – The Chartered Institute for IT

BJTC – Broadcast Journalism Training Council

BPS – British Psychological Society

BQSM – Board of Quantity Surveyors Malaysia

CIAT – Chartered Institute of Architectural Technologists

THE SMALL PRINT

The information given in this printed prospectus, including that relating to the availability of courses, is current at the time of going to press (January 2019) and is subject to alterations. For up-to-date information, please check our website.

Data protection

Personal data about students, including records of academic achievements, are stored by the University (the data controller) in accordance with the General Data Protection Regulation.

Disclaimer

We've made every effort to make this prospectus as accurate as possible. However, it is printed over a year before the courses start.

We continually enhance our offer by responding to feedback from our students and other stakeholders, which may mean we make changes to courses after the prospectus is published.

You'll find the most up-to-date information about our courses on our website.

Very occasionally we have to withdraw or combine courses due to limited demand, as this would have a negative impact on the student experience. When this is the case, we'll advise you as soon as possible before the start of the course and aim to provide a suitable alternative.

Wherever possible, we use images of our campus and students. Occasionally we use stock images for illustrative purposes.
